

ELLEFONTE MAN FILES

SUIT FOR DAMAGES. Charles R. Beatty, head of the Satty Motor company, Bellefonte, filed a trespass suit in the air county courts, through attorney John J. Haberstroh, against Walter, of Queens, Bedford county, asking damages to the amount of \$528.00, as the result of an automobile accident in which one man was killed. The plaintiff avers that on August 7, 1931, his son, C. Ross Beatty, employed by him, was operating a car on the Pleasant Valley boulevard and when near the Greenwood intersection, it was alleged, he was driving at a moderate speed on the right side of the road. The defendant was said to have been operating a car east, on the left side of a road and directly in the path of a Beatty car. The plaintiff asserts that his car was struck by defendant's car and was damaged to the amount of \$428.00. It is claimed that the damaged car depreciated in value to the amount of \$100, asking the total damage asked 28.00.

WORLD'S SERIES PLAYERS WILL DIVIDE \$224,212.42

The 1931 World's Series player pool, derived from a major portion of the gate receipts of the first four games, amounts to \$320,303.46. This is the smallest in nine years and is \$100,000 below the record pool of \$419,736.60, split by the Yankees, Cardinals and other first division clubs in 1928. Of the total pool, 70 per cent, 224,212.42, goes to the Athletics and Cardinals, divided on a basis of 50 per cent to the winners and 40 per cent to the losers. The winners' end amounts to \$134,527.46 and losers' total, \$89,684.96. The Cardinals have already decided to split their end into 30 full shares. If they capture the series, it will mean \$4484.24 per share, on the same basis, a losing share would amount to \$2989.49 per share. The A's have not yet decided in how many shares they will split their end of the money. Cut down to a basis of 25 shares, the winners' split would amount to \$381.09 per share and the losers' \$587.39. The A's and Cards, therefore, in addition to the tussle for the title, will fight it out for a difference of somewhere between \$1500 and \$1,700 per man. The second, third and fourth place clubs in each league split an aggregate of \$96,091.03. It will be apportioned as follows: \$24,022.75 to each of the second place outfits, New York Giants and New York Yankees; \$16,015.17 to each third place team, Chicago Cubs and Washington Senators; \$8007.58 to each fourth place club, Brooklyn Robins and Cleveland Indians.

9,950 LIVES LOST IN AUTO ACCIDENTS

Automobile accidents claimed 19,950 lives in the United States in the first eight months of 1931, as compared with 19,350 fatalities in the same period last year, according to figures released by the National Safety Council, and its statistical experts predicted that the year's death toll would reach a record of 50,000, an increase of 2,000 over last year. Hartford, Connecticut, with a large population, was the largest city in the country to report no fatalities in August, the report showed. Among larger cities with reported records were Boston, Buffalo, Cleveland, Pittsburgh and San Francisco. Cities with unusually bad records this year were Chicago, St. Louis and Los Angeles.

Joe: "I raise wonderful strawberries." Leo: "Are they really good?" Joe: "Absolutely the best. Luscious, large, blood-red juicy fruit." Leo: "Do you put fertilizer on them?" Joe: "No; just creem and sugar." Exacting lady: "I want you to send me over a ton of coal that hasn't any ash or clinkers—and without that sulphurous smell." Coal dealer: "Lady, you don't want a ton of coal. You want to get connected with a gas meter."
