Considerable excitement was caused, on election night, by a small fire on the roof of the home of former sheriff E. R. Taylor, on east Howard street, caused by a spark from a flue fire. It was extinguished before much damage was done. Mrs. Taylor, by the way, was in bed recovering from a severe attack of pneumonia but fortunately was not seriously affected by the fire.

Carpenters, plumbers and workmen generally tackled the Hutchinson house, corner of Howard and Penn streets, to put it in shape as a home for Sheriff and Mrs. Harry E. Thompson Esq., attorney for the Phillipsburg school board, presented a petition to Judge Fleming asking for an order extending the time limit for the payment of school taxes without the five per cent penalty being added from November 1st to December 1st, and the court granted the order so far as his jurisdiction extended. COUNCIL PICKS PIPE FOR SANITARY SEWER DOWN SPRING CREEK.

Hope to Have Sewer Completed Before Winter Weather Sets In.

S. D. Gettig Esq., appeared before council, at the regular session on Monday evening, to find out what council has done in regard to "The Island." He was informed that as both the chairman of the Water committee and the borough solicitor had been away nothing definite had been done, but the matter would be expedited as fast as possible.

A communication was received from the Sanborn Map Co. offering to supply the borough with an up-to-date map for \$57.00. The matter was referred to the Finance committee.

The Street committee reported that the improvements to Lamb street, near the new bridge, had been completed and other repairs and cleaning up done. The committee reported receipt of an offer of \$100 for the iron out of the old Lamb street bridge, but some of the councilmen were of the opinion that it is worth more. It was finally agreed that if the committee can get a cent and a half a pound to let it go.

Mr. Emerick gave figures on the much discussed sanitary sewer down Spring creek. He stated that according to the borough engineer's figures it will take 1172 feet of 12-inch pipe; 702 feet of 15-inch and 505 feet of 8-inch. The cost of cast iron pipe, exclusive of laying, will be approximately \$2923, while the cost of Armo pipe will be \$2695, and the cost of laying it will be at least \$200 less than the cast iron pipe. The Armo pipe is guaranteed for fifty years. Council voted in favor of the Armo pipe and it will be ordered as soon as possible.

The Water committee reported cleaning and repairing the reservoir, other repairs and the collection of \$2000 in water taxes. The water duplicate for 1931 amounts to \$13,047.00.

The Finance committee reported a balance in the borough fund of \$1004.51 and \$1677.24 in the water fund. Mr. Emerick stated that the tax collector expected to turn over about \$20,000 by the latter part of the week and he recommended the payment of notes aggregating \$10,000 as well as the borough's share of the Lamb street bridge. Two notes totaling \$3500 were renewed.

The Sanitary committee presented the report of health officer Nissley in which he stated that there are six cases of scarlet fever in town. In fact they are in reality scarletina.

The Special committee reported progress in the matter of securing a readjustment of insurance rates.

Borough bills for \$1270 and water bills for \$340 were approved for payment after which council adjourned.

WEST WARD RESIDENTS ASK PROTECTION FROM RADIO INTERFERENCE.

Residents of the West ward of Bellefonte appealed to borough council, through councilman M. M. Cobb, Monday evening, to know whether that body has any jurisdiction or control over radio reception. They claim that radio reception in the business section of the ward is very bad; in fact, so bad that owners of radios derive very little satisfaction from them and the complainants feel that there might be some plan of regulation worked out whereby certain hours could be fixed when there would be no interference.

President Walker stated that he failed to understand how council could assume regulatory authority.

Ralph Lightner, of the West Penn Power company, was present, and he informed council that out in Uniontown, Pa., radio reception was so bad that on complaint of the citizens council passed an ordinance in an attempt to control the operation of electric devices but found the effort to enforce the ordinance a hopeless task and it was repealed. The starting or stopping of a motor of any kind, operation of electric elevators, electric refrigerators, the electric feed on oil-burning furnaces, or anything of like nature, will interfere with radio reception, he said. Even a defective street lamp will do it.

President Walker suggested that the borough solicitor be consulted in regard to the authority of council, but in the meantime West ward people are no worse off than radio owners in other sections of the town.

The jinx certainly hovered over Centre county football teams last week. On Friday afternoon Tyrone High walloped Bellefonte High, on Hughes field, 47 to 0. Saturday morning the Bellefonte Academy lost to the Western Maryland Freshman 7 to 0 and in the afternoon Pitt, playing for the first time in years at State College, downed the Blue and White 41 to 6.

Harrisburg police were notified, on Tuesday, by Mrs. Russell Rider, of Bellefonte, of the loss of her traveling bag while motoring in that section. The bag contained jewelry, pen and pencil set, her driver's license and other articles, valued by her at \$400.
