Ayer's Cathartic Pills. THE sciences of Chemistry and Medicine have been taxed their utmost to produce this best, most perfect purgative which is known to man. Innumerable proofs per shown that these Pinzs have yirtuse which surpass in encollence the ordinary medicines, and that they win unprecedentedly upon the esteem of all men. They are safe and pleasant to take, but powerful to cure. Their penetrating properties stimulate the vital activities of the body, remove the obstructions of its organs, purify the blood, and expel disease. They purge out the foul humors which breed and grow distemper, stimulate singgish or disordered organs into their natural action, and impart healthy tone with strength to the whole system. Not only do they cure the every-day complaints of every body, but also brmidable and dangavous diseases that briv baffied the best of humes skill. While they produce powerful affects, they are at the same time, in diminished doses, the salest and best physic that can be employed for children. Being sugar-costed, they are pleasant to take; and being purely vegetable, are free from any risk of barm. Cures have been made which surpass belief were they not substantiated by men of such exalted position and character as to bribid the suspicion of untruth. If R. E. Shiles, It is from a sense of duty, as well as with great ploasure, that I bear testimony to the virtue of your justly celebrated Verminge. I procured a single bottle, and gave it to three of my children, who had been ill for several weeks. The sldest was soren years old, the next four, and the youngest eighteen months. The first passed fifty-six worms, the second forty-seven, and the third a considerable number, not distinctly recollected. Since then they have been doing well, and are now in good health.
