CONSTITUTIONAL AMENDMENT.

Special Election—Shall Soldiers Vote? TUESDAY, AUGUST 2d.

WANTED.—An intelligent boy, from 15 to 17 years of age, with a liberal education, is wanted at this office to learn the printing business.

Do you want to help the soldier? Do you wish to perform an act of the highest patriotism? Vote for the First Amendment.

How THE TICKETS ARE PRINTED.—There are three separate ballots printed thus: First Amendment, Second Amendment, Third Amendment.

The Special Election. Last week we called the attention of the people of Beaver county to the Special Election, which comes off on Tuesday, August 2d.

Prize. Whenever any of the qualified electors of this Commonwealth shall be in any actual military service, under a requisition from the President of the United States, only by the authority of the President, shall such electors be entitled to the right of suffrage in all elections by the citizens, under such regulation as are, or shall be, prescribed by law, as fully as if they were present at their usual place of election.

It will be seen that the first amendment is the one which is to allow our soldiers to vote. We have looked in vain through the copperhead papers for anything advocating its adoption.

We say that the copperhead Judges deprived the soldiers of our State of the right to vote, and no respectable journal can possibly have the hardihood to deny what every one knows.

The copperhead papers are as silent as the grave on the subject of the amendment to allow soldiers to vote. They never advocate its adoption—they never say a word that, by any indirect means, might be construed into favoring it.

Since the necessity for an amendment to the Constitution. We cannot afford to wait until we can change the character of the Supreme Court, and as its decisions are binding and irreversible, the friends of the soldiers are compelled to present an amendment to the Constitution granting to the soldier the privilege of exercising his inalienable right to vote.

The copperheads in the Legislature did their best to prevent the passage of this amendment by that body, and they will do their best, in a sneaking way, to prevent its adoption by the people.

A new and weighty reason for securing the adoption of this amendment is to be found in the fact that the new call for 500,000 men may place in the field a considerable portion of those now at home before the regular election comes off.

We trust, therefore, that our readers one and all, will remember this election and its importance, and make up their minds to render a judicious vote.

England Powerless. England has lost her interest with the United States. Non-interference is an absolute necessity.

Judge Agnew's Opinion. We publish this week the able opinion of Judge Agnew, of the Supreme Court of Pennsylvania, in the case of Field vs. the Insurance Company of Pennsylvania.

The following, which we clip from the Pittsburgh Gazette, is not true, and is opposite to the matter, that we lay it before our readers.
