Together they have cured me. I am now as well and sound as any body. Being in a public place, my case is known to every body in this community, and excites the wonder of all."

"Our only child, about three years of are, was
attacked by pumples on his forchead. They rapidly
spread until they formed a loathsome and virulent
sore, which covered his face; and actually binded
his eyes for some days. A skilful physician applied
nitrate of silver and other remedies, without any
apparent effect. For fifteen days we guarded his
hands, lest with them he should tear open the has
tering and corrupt wound which covered his whole
face. Having tried every thing cles we had any
hope from, we began giving your Sansalantilla,
antlapplying the loadied of potash lotten as you
direct. The sore began to heal when we had given
the first bottle, and was well when we had given
the first bottle, and was well when we had finished
the second. The child's eyelsahes, which had come
