TREASURY DEPARTMENT. Office of the Comptroller of Currency. WASHINGTON, Dec. 20, 1864.

HEREAS, by satisfactory evidence presented to the undersigned, it has been made to appear that "The National Bank of Beaver county" in the Borough of New Brighton, in the county of Beaver, and State of Pennsylvania, has been duly organized under and according to the requirements of the Act-of congress entitled "An Act to provide a National Currency, secured by a pledge of United States Bonds, and to provide for the circulation and redemption thereof' approved June 3, 1864, and has complied with all the provisions of said Act required to be complied with before commencing the business of Bank-

Clathing made to order in the neatest and of Beaver, and State of Pennsylvania, is authorized to commence the business of Banking under the Act aforesaid

In testimony whereof, witness my hand and seal of office, this 20th day of December, 1864, HUGH M'CULLOCH, Comptroller of Currency,

of which we call SCROFULA lurks in the constitutions of multitudes of men. It aither produces or is produced by an onof the blood, wherein that fluid becomes in-

the vital forces in their

vigorous action, and

decay. The scrofulous contamination is visitioning, caused by mercurial disease, 14% living, disordered digestion from unhealthy food, impure air filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution? origin, it is hereditary in the constitution descending "from parents to children unto the third and sourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children." The discases it originates take various names, according to the organs it attacks. In the lungs, Scrofula produces tubercles, and finally Consumption; in the glands, swellings which suppurate and become alternors sarred; in the storage and come ulcerous sores; in the stomach and bowels, derangements which produce indibowels, derangements which produce indi-gestion, dysiepsia, and liver complaints, on the skin, eruptive and cutaneous affections. These, all having the same origin, require the same remedy, viz., purification and invigora-tion of the blood. Purify the blood, and these dangerous distempers leave you. With feeble, foul, or corrupted blood, year cannot have health; will that "life of the fieth" healthy, you cannot have scrofulous discase. Ayer's Sarsaparilla

is compounded from the most effectual anti-

dotes that medical science has discovered for this afflicting distemper, and for the cure of the disorders it enfails. That it is fur, superior to any other refledy yet devised, is known by all who have given it a trial. That it does combine virtues truly extraordinary in their effect upon this class of complaints, in their cheet upon this class of conjunits, is indisputably proven by the great multimed of publicly known and remarkable cures it has made of the following diseases: King's Evil, or Glandular Swellings, Tumors, Eruptions, Pimples, Blotches and Scres, Erysipelas, Rose or St. Anthony's Fire, Salt Rheum, Soald Head, Coughs from tuberculous deposits in the lungs, White Swellings, Debility, Dropsy, Neuralgis; Dyspepsia or Indigestion, Syphilis and Syrhilitic Infections, Mercurial Diseases, Female Weaknesses, and indeed the wholy series of complaints that arise from impurity of the blood. Alimute reports of individual cases may be found in Aven's Avenicks ALMANAC, which is furnished to the druggists for gratuitous distribution, wherein may be learned the directions for its use, and some of the remarkable cures which it has made when all other remedies had failed to silord rollef. Those cases are purposely taken from all sections of the country, in order that every reader may have access to rome one who can speak to him of its benefits from personal experience. Scrofula depresses the vital energies, and thus leaves its victims far more subject to disease and its fatal results than are healthy constitutions.
