decay. The scrofulous contamination is va-riously caused by mercurial discase, low living, disordered digestion from unbesitily food, impure air, filth, and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be dradescending "from parents to children and the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children." The diseases it originates take various names, according to the organs it attacks. In the lungs, Scrokela produces, tubercles, and finally Consumption; in the glands, swellings which suppurate and become ulcerous sores: in the stomach and bowels, derangements which produce indi gestion, dyspepsia, and liver complaints; on the skin, cruptive and cutaneous affections. These, all having the same origin, require the same remedy, viz. purification and invigora-tion of the blood. Purify the blood, and these dangerous distempers leave you. With feeble, foul, or corrupted blood, you cannot have health; with that "life of the fiesh" healthy, you cannot have scrofulous disease

is compounded from the most effectual anti dotes that medical science has discovered for this afflicting distemper, and for the cure of the disorders it entails. That it is far superior to any other remedy yet devised. Is known by all who have given it a trial. That it does combine virtues truly extraordinary in their effect upon this class of complaints, is indisputably proven by the great multitude of publicly known and remarkable cures it has made of the following diseases: King's Evil. or Glandular Swellings, Tumors Eruptions, Pimples, Blotches and Sores Erysipelas, Rose or St. Anthony's Firc, Salt Rheum, Scald Head, Coughs from tuberculous deposits in the lungs, White Swellings, Debility, Dropsy, Neursigis, Dyspepsia or Indigestion, Syphilis and Syphilitic Infections, Mercurial Diseases Female Weaknesses, and, indeed, the whole series of complaints that arise from impurity

of the blood. Minute reports of individual cases may be found in ATER'S AMERICAN ALMANAC, which is furnished to the druggist for gratuitous distribution, wherein may be ened the directions for its use, and some of the remarkable cures which it has made when all other remedies had failed to afford relief. Those cases are purposely taken from all sections of the country, in order that every reader may have access to some ene who can speak to him of its benefits from personal experience. Scrofula de resses the vital energies, and thus leaves its victims far more subject to discase and its fatal result than are healthy constitutions. Hence it tends to shorten; and does greatly shorten, the average duration of human life. The vast importance of these considerations has led us to spend years in perfecting a remedy which is adequate to its cure. This we now offer to the public under the name of AYER's SARSAPARILLA, although it is composed of ingredients, some of which exceed the best of Sarsaparilla in alternive power. By its aid you may protect yourself from the suffer-ing and danger of these disorders. Purge out the foul corruptions that rot and fester in the blood, purge out the causes of disease, and vigorous health will follow. By its peculiar virtues this remedy stimulates the vital functions, and thus expels the distempers which lurk within the system or burst out

on any part of it. We know the public have been deceived by many compounds of Sarsaparilla, that promised much and did nothing; but they will neither be deceived nor disappointed in this. Its virtues have been proven by abundant trial, and there remains no question of its surpassing excellence for the cure of the afflicting diseases it is intended to reach Although under the same name, it is a very different medicine from any other which has been before the people, and is far more efbranch of science or on any musical instru-ment; neo vocal music, private or in classes, fectual than any other which has ever been fectual man available to them, AYER'S ; Lads received in the Primary Department; also small girls of any degree of proficiency. Drawing and painting of every style will receive the special attention of a first-class CHERRY PECTORAL. The World's Great Remedy for Coughs, Colds, Incipient Con-sumption, and for the relief of Consumptive patients in advanced stages of the disease. This has been so long used and so universally known, that we need do no more than assure the public that its quality is kept up to the best it ever has been, and that it may be relied on to do all it has ever done.
