It is not only a perfect Wringer, but the Cog-wheels give it a power which renders it a most Excellent Washer pressing and separating, as it does, the dirt with the water from the clothes, leaving them dryer, whiter and smoother than when 'wrung' by hat the The water can be press of from large and small articles, casier, quicker, and more thotoughly than by the ordinary, old-fashioned back-breaking, wrist-straining, and clothes destroying process.

The Cog-wheels prevent all "wear and tear" of clothes by the friction of the rolls or breaking of stitches by twisting.

Without Cog wheels, the whole strain of forcing the cloth through the Machine is put upon the lower roll, and the cloth is made to act in the place of Cog-wheels, to drive the upper roll, causing a much greater strain upon the lower roll than when Cog-wheels, with our Patent Regulator, are used, besides the extra strain upon the cloth.
