The Monongahela Republican of the 19th says: On Friday last some farmers engaged in plowing on the farm of Squire Shannon, in Fallowfield township, this county, witnessed a scene somewhat strange to this neck of woods. In an adjoining field some ewes and lambs were quietly grazing, and while the attention of the plowman was directed to them by remarks of some one in the crowd, a large American eagle was seen to swoop down, and seize a week-old lamb, with a loud scream flew off far above the tree-tops, bearing the bleating lamb in its talons. This sudden rise in mutton so astonished the farmers that for a while they maintained a silence not unmixed with admiration; but, recovering themselves, set up a shout and halloo which seemingly frightened the proud bird, for it let go its hold, and the lamb fell to the ground with a force which reduced it to a state of mutton chops and steaks in a very short space of time. The high sittings around the neighborhood of the eagle, and the very good mark for sport, which was very far from being unable, however, to bring him to the earth.

The Italian Artistes, who have been delighting our public this week, says the Pittsburg Gazette, with their splendid renditions of some of the finest and most favorite operas, have just written the following letter, which we copy:

"After much experience in using the Piano Fortes of Messrs. Chickering & Sons' manufacture, we are fully convinced of their most excellent and unsurpassable qualities. They possess depth, power and evenness of tone, which supports perfectly and blends most harmoniously with the human voice; making them very desirable instruments for accompanying the voice for singing. For our operatic performances, we find them perfectly adapted, and recommend them most heartily to the public."

Angiolina Ghioni, Amelia Paul Strakosch, Pauline Canina, M. Francisco Boss, Angiolina Ghioni, A. Maciari, Achille Branti, G. Manbusi, G. Strakosch.

The splendid tone and bright Piano used at the Opera, is one of "Chickering's," as is also the one used at the Monongahela House, for the use of their stage, both furnished by Mr. Mellor, and the extensive Piano dealer, on Wood street, and the sole agent for the region, "Chickering."

Lawrence Oil Well - 200 Barrels.

For some time past it has been reported that there was a big oil strike on the Slipperyrock creek, at Aiken's landing, in this county, and that large quantities of oil was running into the creek for want of tankage. We know that there was oil in that vicinity, as the Collins & Smith well has been producing from twenty to thirty barrels per day when pumping, for some time past; however, we doubted the report that the well of the Lawrence Petroleum Company was producing the amount stated.

On Tuesday last we went out with Mr. R. Lawrence, the superintendent and manager of the works, and a couple of other gentlemen, found the engine in motion and the well yielding a large amount of oil. The news of the big strike had brought quite a number of persons present from different sections. Gentlemen who had experience in oil wells said at once that the well was producing oil at the rate of 200 barrels every twenty-four hours; others estimated it at more. We remained on the ground for five or six hours, and then, with others, tested by actual time and measurement the amount produced. A full barrel of pure oil would pass through the tube connecting the tanks in twelve seconds—a full pull of oil and water as it came from the well passed into the bucket in ten seconds—the oil and water was then left standing a few minutes when the water was drawn off and the oil in the bucket was the product of the well in ten seconds, which was a trifle over one gallon. This experiment was tried several times, so that all present were satisfied that the yield was one gallon in that time. At this rate the product of the well would be 300 gallons per hour, making 8640 gallons in twenty-four hours, a little over 200 barrels. We noticed the workings of the well for some time and were inclined to the opinion that the amount of oil produced was on the increase. Mr. Lawrence had tankage up to hold two thousand barrels, and in a few days will have tankage for fourteen hundred barrels in addition. If the amount of oil now produced will compare with any other well, as the oil is of superior quality for lubricating purposes. The engine is kept in motion day and night, and at last reports the well was yielding oil in about the same proportion as above stated.—Lawrence Journal.

The body of a woman, supposed to be about fifty-five years of age, was found floating in the Ohio river near Freedom, on Saturday. She had on a black dress, quilted hood, blue stockings and low shoes. Coroner McCoy held an inquest, when the jury came to the conclusion she was drowned, as there was no mark of violence on her person. A one dollar bill, twenty-five cents in scrip, and three coppers were found on her person.—She was buried in the public burying ground at that place. Any information wanted may be had by calling on T. G. Kerr, at Freedom.

At Pardeo's Drug Store, in Rochester, may be found the largest and best selected lot of paints, oils, &c., in the county, which he proposes to sell at about cost prices. We visited the Drug Store a few days since and found everything as represented. Mr. Pardeo is a gentleman, and not only treats customers well, but sells to them at low rates.

The Etina Oil Company struck a fine show of oil on Saturday last. From what we learn we have no doubt they have a fine well. This well is on the property owned by the Beaver County Oil Company, and the first well of their works on this property soon.

A SPRINGER BIRD.—On the first of March last, Mr. William McClusky shot and crippled a large bird, on the farm of the widow Satterfield, in Pulaski township. It measures five feet nine inches from tip to tip of the wings. We saw it a few days since. It is pronounced by some to be a Turkey Vulture, a native of Java. It may be—we do not know.—Lawrence Journal.

Congress has decided that none of the forts, arsenals, military posts or naval stations belonging to the United States shall bear the name of a disloyal personage, or in any way be used to perpetuate the memory of a traitor. Of course the copperheads will object to this as a wrong.

THOS. SHIELDS, convicted of the deliberate murder of a man named Robert Taylor, was hung at Libby prison, in Richmond, on Friday. He was impetuous to the last. He and his brother, the Paul-Mundy murderers, were hung at Ebensburg, Cambria county, on the same day.

H. J. Elcott, a youth of eighteen, has executed in plaster a life-size statue of the late President Lincoln, which has been placed in the Capitol at Washington, where it attracts much attention.

The title of Peter Senatus must now be divided equally between Mr. Wade and Mr. Sumner, both of whom entered the Senate at the same time, and now count sixteen years of continuous service.

The foundation for the monument to the memory of the deceased soldiers of Venango county is now being laid in the public square at Franklin.

Important to Housekeepers.

The steady reduction of the price of gold has sensibly affected every branch of business. The cost of merchandise in general is growing less to the consumer every day. Still, as Shallenberger announces to the public, what their customers have already discovered, a heavy reduction in the price of Groceries.

They give no quotations, as prices are almost daily changing, and with a downward tendency. This much, however, they will say: With a full knowledge of the Grocery business, they buy the best quality of goods to be found in the best markets, at the lowest cash rates, and have resolved to sell them at an unusually small profit.

Goods for distant points, are carefully packed, plainly marked, and delivered free of charge, at either of the railroad stations, or on board the trains, when freight is prepaid.

STILES & SHALLENBERGER, Dealers in Groceries and Queensware, Bridge-water, Pa.

TO CANDIDATES.—A number of candidates have already handed in their names for publication. As the County Convention will not likely be called for some weeks yet, we will not publish the names at present. Our charge for inserting names will be as follows:

CHICKERING & SONS' PIANO FORTES.

THE instruments now manufactured by this well known, long established firm are the results of nearly half a century of study, experiment and improvement.

Possessing greater advantages than all other makes through this long period of increasing experience, two generations of active, energetic mind have been seasonally employed in perfecting their productions.

THE CHICKERING PIANOS. Are now at the head of all the instruments manufactured in this country. For purity and sonority of tone, elegance of finish, thoroughness and durability of structure, they rank foremost of all.

With the scarcely mechanical excellence which results largely from the ingenious inventions of Messrs. Chickering themselves they combine a beauty, delicacy, and poetry of tone which is a rare quality, and seems to depend as much on the intelligence as on the handwork of the maker.

Among the leading artists who have visited this country and well-known Pianists of Boston and New York who use the "Chickering Piano" in preference to those of other makers in the country, may be mentioned, Thalberg, Gottschalk, Well, De Meyer, Jaell, Muzio, Sanderson, Hoffman, Pyschowski, Schumann, Liszt, Reclam, Scherzer, Lang, Benedetti, Bassini, Warren, Strakosch, Parker, Bristow, Glider.

Pittsburgh Agency For CHICKERING & SONS' PIANOS. (Established in 1831, by J. H. MELLOR.)

IMPORTANT TO PURCHASERS. The subscribers are the exclusive wholesale Agents for the Chickering Pianos, for Pennsylvania, Eastern Ohio and West Virginia. Special arrangements enable them to sell at exactly the same price as charged at the Factory in Boston, thus saving freight, insurance and risk of transportation to purchasers residing in or west of this city.

THEY stock the best quality of pianos, and select the selection of their stock, visiting the Factory nearly every month for this purpose; their experience in the business, musical skill, and practical knowledge of the manufacture of Piano, enable them to select the best instruments that Messrs. Chickering produce.

Every instrument warranted for 5 years, by the manufacturer and the subscribers. Persons at a distance desiring further information should send to the subscribers, who will be happy to send them, post-paid, drawings of the various styles of Pianos, prices, &c. Old Pianos taken in exchange.
