IMPORTANT INFORMATION!

WHERE TO BUY THE

CABINET ORGAN

It is a general feeling among those about to purchase musical instruments, that were they in direct communication with the factory they would have a greater opportunity for selecting a fresh and perfect instrument, than it would be possible to obtain from any agency The subscriber would say, that to obviate this difficulty, and afford persons at a distance the same privileges secured to those near the factory, Messrs. ason & Hamlin have established a number of *Wholesale Agencies* at important points, where a full supply of all the various styles of Cabinet Organs is constantly kept on hand. This agency in Pittsburgh is a *Wholesale* one, and purchasers may rely on being served here, as advantageously as at the factory. A competent player and musician is always in attendance at the warerooms of the subscriber to perform on the instruments, exhibit their various powers and qualities, show the different stops and their combinations, and explain their internal construction. All instruments sold in the city, are sent to the residence of the purchaser without charge, and those sold out of the city are securely boxed and delivered at the railroad stations or landings in the city, free of expense.

Persons ordering an organ by letter, are assured that as good an instrument will be sent, as if they were here to select it personally; the subscribers considering themselves bound by honor and interest to select and forward *none other* than the *very best* of the style ordered.

Caution to Purchasers.—The high reputation of the Mason & Hamlin Cabinet Organs, and the extensive demand for them, has frequently induced dealers to represent that other instruments are the same thing; that there is no essential difference between the Cabinet Organs and the organs with various other names made by other makers. This is not true. Several inventions, from which arise the chief excellences of the instrument, are peculiar to the Cabinet Organ; for, being patented and controlled by Mason & Hamlin, they cannot be used by other makers. It is therefore not merely from more thorough workmanship and better material, that the Cabinet Organ derives its superiority (though much is derived from these) but there are essential differences of construction, the right to employ which is the property of its manufacturers.

Purchasers should be careful to observe that the words Mason & Hamlin Cabinet Organ are on the name board of each instrument in full.

When a dealer represents any other instrument as a Cabinet Organ, or as "the same thing," it is almost always an attempt to sell an inferior instrument on which he can make a larger profit.

The subscribers will be happy to receive communications from any one that desires further information about the Cabinet Organ, and are anxious to put into the hands of everybody, whether intending to purchase an instrument or not, a copy of the circular, which contains a vast amount of interesting musical information. Copies mailed free to any address.
