COL. CAKE, the Collector of Customs at the Port of Philadelphia, last week received a letter from Secretary McCullough stating that he had heard with great regret that the (Col. Cake) had appointed to subordinate places in the Custom House, men who had abused President Johnson.

TOOMBS of Georgia, has written a letter to the secretary of the National Democratic Committee in which he avows himself willing and anxious to act with the Democratic party, believing that in the end the "lost cause" will be vitiated through it.

SEXTON TRAYER advanced an idea during the debate in the Senate on Friday last, on the threatened Indian War, which, if acted upon by Congress, would go far toward putting an end to the troubles on the Western frontier.

The editor of the Local has on numerous occasions directly benefited the Union party of this county by his obscure and scurrilous attacks upon some of our citizens; but at no time in the past has he accomplished so much in this particular as he did last week.

The editor of that paper is the son-in-law of H. B. Anderson, the "Lost Cause" candidate for county Treasurer, and the people took upon his utterances just now, in reference to that office as being inspired by the candidate himself.

The editor of the Local some three weeks ago told his readers that our interrogations as to his "private character and military history" were "annoying" to him, and intimated that if we would now "leave him alone" in these particulars, he would pursue a similar course toward us. We accepted the proposition, and have studiously avoided referring to him in an offensive personal sense ever since. But he pursued a very different course: As soon as he obtained a promise from us not to "twit" him with his "private character and military history" he renewed his background, and his last issue is by all odds the most scurrilous sheet ever issued in this county. In that paper he editorially calls us all by the names he can think of, and not content with that he takes shelter behind an anonymous signature, and writes more senseless things about our "military history" than anybody ever dreamed of before.

We have no defence to make now of our military conduct while in the field. That conduct was reported, (and not by our own procurement either) to the War Department, by our superior officers, was there passed upon, and such testimonials awarded us for "good conduct in battle," as but few volunteers officers ever received. Under these circumstances, then, we repeat, we have no defence to make; and as we have never been charged with the commission of a military crime, or the omission of a military duty, by a reputable or responsible party, we shall bandy no words in reference to our military conduct, with either a notorious "blunder," a "shouty name recruit," or substantially dismissed junior officer. On that "pint" we bid them a cordial good bye. But on another point we are both to part with the bitter, and think we shall not only give him his military history, in *multum in parvo* style, stating first how it came into our possession, and why it remained unpublished until this time. Many of the readers of the Argus will recollect that last summer we had quite a "military history" discussion in the two papers of the county. In order to get Odell's military history, we addressed a letter to an officer of his regiment, who was his superior in rank, in reference to his conduct while in the army, and received in reply the letter which is herewith appended. The day before this letter reached us, Odell published his own military history, written by himself, in the Local. The history given him by his superior officer contrasted so unfavorably with the one written by himself, and put him in so degraded a light, that we took pity on him, wrote him a private note, took pity on his history as given by his superior officer, and told him, if he now ceased his personal attacks upon "ourself" and political friends we would not expose him to the scorn of the soldiers and the contempt of the citizens of the county among whom he resided. We took occasion to tell him that this proposition was not made through any disinclination on our part to see in print whatever might be truthfully said of us. And this is the letter the poor devil has been telling his readers we wrote, "asking him to spare us." He could not comprehend an act of kindness, and to this day he does not know that his publication was withheld simply because of our forbearance toward a weak, unfortunate man, who accidentally became an officer of the army, when material for such became scarce in the regiment to which he belonged. To our note he sent us a sassy reply and told us to publish the letter if we chose to do so. We however never put in print, nor would we do so now if his recent conduct did not show us beyond a doubt that he was neither more nor less than a common blackguard. We withhold the officer's name who furnished us with this history, as well as his post office address, pending at the same time that he is a distinguished, respectable and influential man in the county where he resides. Here is his letter:

Ohio, Aug. 23, 1863.

CAPT. J. WEYAND, Beaver, Pa.—Dear Sir: Yours of the 16th is received. J. P. Odell was originally ordered Sergeant of Co. K, 90th Ohio, but was reduced to the ranks for drunkenness and insubordination; was afterwards promoted and finally became Adjutant when material officers became scarce. Got drunk while at Nashville on his way home on veteran furlough in 1864, and was kicked down stairs and out of the barracks by the privates of the regiment; was sent to his company. He did his duty well enough when sober, was always reliable in his views, was threatened with court martial for reasonable language while we lay in front of Vicksburg. Some of the officers of the regiment were willing to disgrace him, but by preferring charges against him, he dried up all nothing was done. This in short is his history. Of course I don't wish to be brought into your quarrels in Beaver, especially as he has been so long in the ranks, and the only votes he will get will be those furnished by "Lost Cause" men. Capt. Barnes will have the full vote of his party, and he may feel under obligations to the Local for giving it to him.

Very Respectfully Yours, etc.

There, J. H. Odell, is your military history, as given by an officer of your own regiment. Is it not a "thrilling" one, and should you not be "proud" of it, as you have repeatedly stated you were. Get it framed, hang it up in your parlor, and let posterity see what you did toward putting down the Great Rebellion, and how you did it.

The Local has repeatedly insinuated of late that Capt. Jas. Darragh and Sergeant Robt. Dickey were disgraced with the result of our primary meetings. This is simply an injury to these gentlemen, and is despicable even a shadow of truth. They were Union men from principle, not from a desire to get offices, are Union men still, and in full accord with their party; and this attempt of the Local's to throw suspicion upon their party fealty is as contemptible as it will be fruitless. That paper receives no thanks from either of them for thus using their names.

The Ohio township correspondence in the last Local is too stupid a dodge to be tried in Beaver county. That communication was written in Beaver, by a man living in the place, and by a person who never was, and who could not now be anything but a "Lost Cause" man.

The "Lost Cause" party have a troublesome time in explaining away the opinion of Judge Sharswood on the legal tender question. Some of their editors undertake to do it in one way, while others put it entirely upon different grounds. The better plan we judge, would be to let the opinion explain itself, and to this end they should publish it, as it was rendered. Could not the Local let its readers see this opinion in its columns?

They can also see that the Democratic party by refusing to pass a resolution, committing the party in favor of a General Railroad Law, have thereby arrayed themselves against it. And there is no evasion, no abuse that can be heaped on others, no false issue can be made, nor any raised to blind the people to the fact that Odell, by betraying the people and the Democratic cause, has himself by the action he has taken to the State Convention. What does it amount to, that Mr. Boyle a Free Railroad man was president of the Convention, or that Wallace an appointed chairman of the committee, who cares or who is the difference who was president of the Convention or chairman of a committee? What power have they over the question? It is a matter of public knowledge, and as good reasoning to say that Odell was a delegate to the State Convention, and therefore the Democratic party is in favor of it. Stand up to the scratch Mr. Odell. Let there be no dodging, you must stand by your record, and there are many who will watch you, but there are many others who have discovered that there is "something rotten in Denmark." Although I have been a long time a Democrat, I can't help but express my gratification at the fact that the Republican State convention has taken in committing their party to this measure, and I am glad you, Mr. Editor of the Argus, were not a member of the convention, and that you did not adopt the policy that has clogged the wheels of our commerce and prevented the proper development of our
