NEW DRESS GOODS. NEW PRINTS, NEW DELAINES,

NEW MILLINERY GOODS!

HATS, FLOWERS, RIBBONS, &c.

About fifty dwelling houses have gone up during the present summer, and about twenty-five more of a better class are under contible article in the Local of two weeks ago, in

This Machine is constructed on a new principle of mechanism, possessing many rare and valuable improvements, having ibeen examined by the most protound experts, and pronounced to be simplicity and processing the protocol of the protocol o

iound experts, and pronounced to be simplicity and perfection combined.

In a mechanical point of view, the advantages we chaim for the "Expure Machine" are—
ist—The method of driving the Noedle Bar by a compound cank, which preduces the same action as heretofore obtained by means of a Cam; but in a more durable and noseless manner.

2d.—We use a rotating shaft above the table, and thus are enabled to give all the room required under the arm; without detriment to the durability of Machines; having a hearing directly over the Needle Bar. the arm, things a bearing directly whites; having a bearing directly set.

3d.—Our Feed Wheel is a friction feed, and so constructed there is but one joint in transmitting the motion from the rock shaft to the wheel, and unlike all others, cannot be effected by oil or dust.

4th—The Rock shaft that works the Peod motion also drives the Shuftle. The bearings of this Shaft and also drives the Shuftle. The bearings of this Shaft and

the The Rock Shan that were any this Shaft and alter drives the Shaft. The bearings of this Shaft and tentre are hardened steet, and adjuntable, so that we can take up the lost motion at will.

The following are the principal objections urged against Sawing Machines:

1. Excessive fatigue to the operator.

2. Liability to get out of order.

3d. Expense, trouble, and less of time in repairing.

4. Incapacity to see every description of material.

5. Disagreeable noise while in operation.

The Empire Sewing Machine is Exempt from all these Objections.

It has a straight needle, perpendicular action, makes the lock or shuttle stitch, which will neither rip hot ravel, and a slike on hoth sides; performs perfect sewing on every description of material, trom Leather to the larger, hanged, himle, with estimalities, or alle stream, then the disease is the larger to the larger IT HEMS, FELLS, BINDS,BRAIDS,

GATHERS. Having neither cam nor cog wheel, and the least pos-ible friction, it runs as smooth as glass, and is

TUCKS, QUILTS, PLAITS, and

Emphatically a Noiscless Machine.

STILES & SHALLENBERGER,

Was this day Dissolved by Mutual Consent,

Shallenberger Bros. And will strive to night, to a still greater extent, the confidence and patronage of the community.

Will, as before, give his EXCLUSIVE PERSONAL ATTENTION TO THE BUSINESS, And the constant aim of the new firm will be to

PRINCIPLES: STRICTLY HONORABLE AND PROGRESSIVE.

They here state a few of the general principles they adopt, as essential to success: ist. To buy and sell closely for cash, or its equiva-lent, in order to command the lowest prices and best markets.

3d. To exercise good taste and great discrimination in baying choice goods, and in keeping a full and vari-

in baying choice guess, and in actions, and in second stock.

3d. To carefully avoid the practice of misrepresenting, or of decriticity concealing the real quality of goods, in order to effect sales.

And finally, in all respects, to do an honest and tertisticate business, which will best serve the interest of the commanity, and to this end they ask the encouragement of liberal patronage.
