Telegraphic News from all Parts of the world.

More than eleven years have classed since the undersigned undertook the hazardous task of establishing a daily paper at the Capitol of the State. In 1856 on the 7th day of October, the Daily Telegraph was first projected by the present proprietor, and we seed not tell our readers that great doubts existed in the minds of many of our friends of our ability to sustain the same, with the limited means at command, but a fixed determination, energy and industry have crowned our effort with success, and the Telegraph to day bears abundant testimany that it is a pyrminent institution of the Capital City.

When we remember that we started with but ore Washington and an old wooden power press, which was sufficient to do all our press work at that time, was sufficient to do all our press work at that time, was sufficient to do all our press work at that time, was sufficient to do all our press work at that time, was sufficient to do all our press work at that time, was sufficient to do all our press work at the time was feel excaedingly gratified to inform our readers that it requires now one large double cylinder Taylor press, to large single cylinder Taylor presses, a large from hand press, to supply the wants of the pable along the same increase, in proportion of lic, and the same increase, in proportion of other printing materials.
