Having made several important improvements on the "Climax," by which coal or wood can be supplied without litting lids, and having two places for pipe, either or both of which can be used at the same time, with a ventilation to the oven, thus having the advantages of a Cooking Stove, Bake oven and Franklin Stove combined. This Stove has been in constant use for twenty years, and many of them after being used for this period of time, are now in good order. There is but a small portion of this stove that ever burns out, and this is easily and cheaply replaced. To make them still more lasting, we are now putting in the or fire brick lining. Our other patterns are the Enterprise, Keystone and Fremium. Parlor Stoves, large and small heating Stoves, Franklin Stoves, Jenny Lind's, &c. While living in the East I used several of the most Celebrated Cooking Stores made in that part of the country, and on my arrival here. I was recommended to purchase the Crystal Palace Stave, (also invented by Mr. Anderson) as being the best. I did so, and used it with good ratifaction. When I saw Mr. Anderson's new Store, I was attracted by its neat appearance, and on examining its Gren and interior arrangements, found it possessed many advantages over all I had seen. I purchased, and have one now in use. We consider its superior to any we have ever used. It is all the inventor claims, and we think, all that could be desired in a Cooking Stove.
