EDUCATIONAL COLUMN.

G. L. EBERHART, Editor.

BEAVER, January 22, 1868.

[ALL COMMUNICATIONS FOR THIS DEPARTMENT OF THE PAPER, MUST BE ADDRESSED TO G. L. EBERHART, NEW BRIGHTON, PA.]

SALUTATORY.

The proprietor of the *Argus* has kindly consented to give a portion of his journal exclusively to the cause and interest of Education; and, not doubting that the teachers and other friends of education in Beaver county, would generously and promptly sustain me, by frequent literary contributions, and the proprietor by their patronage, have assumed the duty of editing the Educational Department. In taking such a position, I have not been unmindful of the responsibilities which it involves; nor of the many difficulties which one is likely to meet in one's effort to conduct such a department efficiently and with satisfaction to all concerned. I have been, however, profoundly impressed, for some time past, with the necessity for the awakening of a more lively interest—*a general revival*—in the cause of Education, not only among teachers, but among School Directors, and, in fact, among all classes of our citizens.

To awaken interest in any cause, and to work reform therein, it is essentially necessary that it be brought directly and *frequently* to the attention of the public, and in no way can this be as easily and effectually accomplished as by means of the public press. It occurred to me, therefore, that an Educational Department in one of our county newspapers would at once afford the friends of education in the county an easy and powerful means of discussing our School System—its merits and demerits;—and of creating an interest which would ultimate in elevating the character and efficiency of the teacher's profession, and consequently result in rendering our common schools what they should be—schools in which our children shall be properly fitted, morally and mentally, for all the high and holy duties of maturer years.

With this object in view—stimulated by an earnest desire to aid, in some manner, the growth and prosperity of the grand work of Education in the State as well as in my native county—I cheerfully take upon myself the duties which my new position imposes, and respectfully ask the hearty support and co-operation of the teachers, and, all other friends of common school education in the county.

It is designed to make this department entertaining as well as instructive. It is expected, therefore, that contributors in preparing articles for it will endeavor to make them as varied in character as possible. It is best calculated to render this portion of the *Argus* in the highest degree attractive and didactic.

The discussion of our school system—its defects: improvements and amendments needed, &c.;—disquisitions upon the various branches of instruction—the best methods of presenting them to the pupil;—the theory and practice of teaching; queries calculated to elicit information upon, and the discussion of subjects, with which our teachers are not generally familliar; dissertations upon school government; analyses of difficult problems in algebra and in mental and written arithmetic, will be welcomely received and duly considered.

All communications for this department must be addressed to the undersigned at New Brighton, Pa.

G. L. EBERHART.

Queries.

No. 1. Will some one tell us, in a clear and brief article, why some mountain tops are continually covered with snow?

No. 2. Were a tree to be uprooted and dashed to the earth, where no car was within a hundred miles of it, would *sound* be produced?

No. 3. What portions of the earth's surface are rainless?—and why?

Mathematical.

We ask for written analyses of the following examples:

No. 1. If 248 men, in 5 1-2 days of 11 hours each, can dig a trench of 7 degrees of hardness 232 1-2 yds. long, 3 2-3 wide, and 2 1-3 deep, in how many days of 9 hours each, will 24 men dig a trench of 4 degrees of hardness 337 1-2 yds. long, 5 3-5 wide, and 3 1-2 deep?

No. 2. A watch, which is 10 minutes too fast on Monday at noon, gains 3 minutes 10 seconds per day. what will be the time by the watch at a quarter past ten in the morning on Saturday?

No. 3. A person passed one-sixth of his life in childhood, one-twelfth of in youth, 5 years more than one-seventh of it in matrimony; he then had a son, whom he survived 4 years, and who reached only one-half his father's age; at what age did the father die?

No. 4. Now long must a body fall freely to acquire a velocity of 3040 feet per second?

No. 5. Express 320 rods, 5 yds. and 6 in. in Metric Measures.

Notice to Contributors.

In preparing articles for this department, write only on one side of your paper, number the pages of your MS., and write plainly—making no flourishes, or other attempts at a *display* of penmanship. All the printer asks is *legible* writing.

So far as possible, we desire correspondents to send the solutions and answers with their mathematical problems; and also the answers with such queries as may require only a sentence to answer them.

THE number of youths enrolled in Ohio for school purposes, is 1,019,195, divided as follows: White males, 506,690; females, 487,881; colored males, 11,039, females, 12,192.

Surveyor General.

To the Editor of the Pittsburgh Commercial:

Permit me to suggest the name of Col. Jacob Campbell as one worthy of presentation to the Republican Convention of 1868, for the nomination for the office of Surveyor General.

Col. Campbell is, as I know, an aspirant for the office, but his eminent fitness for the position, his unparalleled success in bringing order out of confusion while discharging the duties of office, the profits accruing to the State by a faithful supervision of its landed interests, and the strength of his name with the people, are all suggestive of his renomination. His reports to the Legislature furnish abundant statistics on which to base his claims, but the strongest claim, perhaps, is that a pure and unsullied name would be a tower of strength to the party during the coming Presidential campaign. We are not among those who believe that the Republican party is to-day weaker than it ever was, but we firmly believe that its reverses in many places within the past year were owing, in a great measure, to the nomination of men for office who were so utterly destitute of moral influence as to result in their defeat, as well as the temporary injury of the party who sustained them. The coming campaign will require that good men be nominated for every office of importance in both State and Nation—men whose past acts will bear public scrutiny.

We therefore ask your influence in thus early presenting the name and claims of Col. Campbell; in order that the public press, which is the true exponent of the will of the people, may know whom the people will claim as their choice, and echo back that will to the nominating convention in order that it may act intelligently.

The success of a Presidential candidate in each State depends to a great extent upon the character of the State nominees, and hence we present Col. Campbell's name firmly believing that both his military and civil career as an officer will bear the test of the closest criticism.

It is not our intention at this letter to enter into the details of Col. Campbell's services. They have already borne the ordeal of one campaign, since which time he has added laurels to his chaplet in the department of the land office. We trust we are but reiterating the sentiments of the entire people, when we state that no predecessor in that department ever discharged the duties pertaining to that office with more fidelity and greater success. Honor, then, those to whom honor is due.

"JOHNSTOWN."

THE House Committee on Elections decided to report in favor of unseating John Young Brown (Democrat) of Kentucky, upon the strength entirely of Brown's written acknowledgement that he did, in 1861, use the following language:

"Not one man or one dollar will Kentucky furnish Lincoln to aid him in his unholy war against the South. If this Northern army shall attempt to cross our borders we will resist it unto death; and if one man shall be found in our Commonwealth to volunteer to join them, he ought and I believe will be shot down before he leaves the State."

Brown is served right.

State Temperence Convention.

A State Temperance Convention will be held in Harrisburg, beginning on Tuesday, the 18th of February, 1868, at ten o'clock, M., and continue as long as it may find business. Notice is given that "every person attending the Convention who has purchased a ticket to Harrisburg at full rates at any station on the Pennsylvania Road, the Philadelphia and Erie Railroad, or the Northern Central Railway, will receive at the Convention a free return ticket. Return or excursion tickets for one fare will be granted at the time of purchasing at any ticket office on the Reading Railroad, the East Pennsylvania, and the Lebanon Branch, to all persons who travel over these roads to attend the Convention." The Pennsylvania State Temperance Union will hold its annual session in Harrisburg during the week of the Convention, for the election of officers and managers. The report of the managers will be presented, showing the success of the enterprise during the year. Interesting resolutions and plans of action will be presented for discussion, and eloquent speakers will be present to enliven the occasion. All persons at the Convention and others (male and female) will have an opportunity to become members of the State Union, and all its auxiliaries are requested to send delegates to this annual meeting, as well as to the Convention.

First Premium

At the State Fair recently held at Pittsburgh. This Stove combines many new and important principles, which place it far in advance of all others now in use. Some of the merits claimed for it by the Inventor, are Heavy Metal, Well Proportioned, Beauty of Style and Finish, Ease of Draft, Easily Kept Clean, Requires but little Fuel, and the

BEST BAKER EXTANT.

All orders thankfully received and promptly filled.

We Call Attention to the Following Statements:

While living in the East I used several of the most Celebrated Cooking Stoves made in that part of the country, and on my arrival here, I was recommended to purchase the Crystal Palace Stove, (also invented by Mr. Anderson) as being the best. I did so, and used it with good satisfaction. When I saw Mr. Anderson's new Stove, I was attracted by its neat appearance, and on examining its Oven and interior arrangements, found it possessed many advantages over all I had seen. I purchased, and have one now in use. We consider it superior to any we have ever used. It is all the inventor claims, and we think, all that could be desired in a Cooking Stove.

CAPT. GILBERT PENDLETON.

ROCHESTER, Nov. 21st.

Having one of Mr. Anderson's new Stoves in use, I can fully endorse Capt. Pendleton's statement.

JOHN H. WHISLER.

Having one of Anderson's new Stoves in use, I can fully endorse the above recommendation.

J. WOODRUFF.

Having one of Mr. Anderson's new Stoves in use, we are fully satisfied with its good qualities in all respects.

JOSEPH LEVIN AND WIFE.

ROCHESTER, Nov. 25th.

Having kept house for a long time, and used a great number of Cook Stoves of different patterns and styles, I consider J. J. Anderson's new Stove, in point of economy in fuel, ready cooking and baking for its size, superior to any we have used, and cheerfully recommend it, believing it will render entire satisfaction.

CHAS. ELKINS.

We have one of Mr. J. J. Anderson's new Stoves, manufactured at the Rochester Foundry, and having given it a fair trial, we find it comes fully up to all that has been claimed for it. It heats very rapidly, takes but little fuel, and is a most excellent baker. Mr. Anderson may congratulate himself on having achieved quite a triumph in the line of Cooking Stoves.

Very respectfully,

FALLSTON FOUNDRY.

ENGINE & REPAIR SHOP,

In Fallston Beaver County, Pa.

HAVING refitted and enlarged my stock of machinery and tools, and having secured the services of the best of mechanics, I am prepared to warrant all work done to give entire satisfaction. I have on hand different patterns and styles of Engines, Fire Clay Rolls, and am prepared to make or repair all descriptions of machinery, on reasonable terms.

PLOWS AND PLOW CASTINGS.

I have all the best plow patterns that suit this market, among which is the "Great Western," which has been the plow of the country for the last fifteen years. There are five sizes of this plow, all of which I manufacture and keep for sale; also "Patent Lever"—right and left—and keep for sale also "Patent Lever"—right and left—"Mountain King,"—right and left—"Side Hill," and nearly all the different kinds in use.

COOKING, FRANKLIN AND HEATING STOVES.

Various needed important improvements on the "Climax," by which coal or wood can be supplied without lifting lids, and having two places for pipe, either or both of which can be used at the same time, with a ventilation to the oven, thus having the advantages of a Cooking Stove, Rake oven and Franklin Stove combined. This Stove has been in constant use for twenty years, and many of them after being used for this period of time, are now in good order. There is but a small portion of the stove that ever burns out, and this is easily and cheaply repla
