The Beaver Argus. J. WEYAND, EDITOR AND PROFRIETON Beaver, Pa., May 13, 1868. Republican State Ticket. AUDITOR GENERAL GEN, JOHN F. HARTHANFT OF MONTGOMERY COUNTY. SURVEYOR GENERAL. GRN. JACOB M. CAMPBELL. OF CAMBRIA COUNTY.

THE Democrats have a majority in the Ohio Legislature. Last week the Senate passed an act distranchising the crippled inmates of the "Soldiers Home" in that State. The same bill will soon be acted upon in the House, and as it was reported by the Democratic caucus, there is no doubt at all of its the third instance of practical amalgamation finally becoming a law. Armlese and legless of late, years in this county, and curfously veterans do you discover much friendship for yourselves and comrades in Democratic legislation? We trow not!

THE Democratic majority in the Ohio Leg. islature seems to be preparing for militury operations. ' They have cancused bills which are to be put through by a party vote, taking from the Governor the control, of the State arms, and placing the arsenal in charge of certain Democratic members of the Senate and House, who happen to be Chairman of the Military Committees; also repealing the law for the organization of the militia of the State. The Democratic suchems are determined that in any future rebellion, no loyal Governor shall have power to call the militia of the State into the service of the National Government.

THE closing speech in the impeacment case these sixteen belonged, and represented it to was delivered by Manager Bingham of Ohio, be "a base ball and glee club" comprised of reand was concluded on last Wednesday. Chief Justice Chase arose very itor of the Memphis Avalanche then came out indignantly and ordered the Sergeant at arms in a card and denied the truth of the apoloof the Senate to clear them at once. A vote in the case was to have been taken on Tuesday (yesterday) but with what result we do not yet know.

THE Chambersburg Repository, one of the best and most influential Republican papers in Pennsylvania, changed hands last week-Coll M'Clure retiring and Jesse Gook and S. W. Hays, Esq., taking his place. The Repository will continue to be a bold, out spoken Republican paper. We wish the new editors Republican paper. We wish the new editors great political and pecuniary success. The ish organization than this Ku Klux Klan Repository does not state what Col. M'Clure's attention will be directed to in the future.

THE State Convention of the Republican party of Illinois, met at Peoria on last Wednesday, and put the following excellent tickct in the field: For Governor, Gen. John M. Auditor, J. L. Lippencott ; for State Treasurer. M. Bates; for Attorney General, Washington Bushnell. The delegates to the State Convention were instructed for Grant for President!

THE news from Washington yesterday morning looks as if impeachment would fails Quite a number of Senators with have here tofore been counted is certain to vote for con viction on all the articles have taken grounds against some of them, and will probably oppose them all. Among these Senators are Sherman, Howe, Trumbull, Henderson and Fessenden. Each of the Senators are allowed fifteen minutes to express their views. Monday and part of Tuesday were taken up in this character. of speaking. The final-vote was to be taken yestesday noon. The indications now are that this yote will acquit the President.

WE learn that considerable excitement exists up the river, caused by the marriage of a young "Democrat" to a juulatto girl, who strange to say, were married by a "Democrat" -so that the whole affair is a Democratic proceeding, probably adopted to carry out the views of a white man's government. This is enough in every case the parties were Demo-crats. The only voter in this county tinctur-ed with Ethiopian blood is also a Democrat, and is as regularly marched up to the polls as a horse to his rack, without an objection from

the white Democracy .- Lewistown Gazette. THE Ku Klux Klan is being unveiled in Tennessee. It will be remembered, by the readers of the daily papers at least, that some tew weeks ago the police of Momphis made a descent upon a den of supposed Ku Kluxers, arrested sixteen of their number, and carried them before the Mayor. Here they denied belonging to the Klan, and as no positive proof was adduced to show their connection with that miserable organization, they were permitted to go at large. The rebel papers in that vicinity then went to explaining the character of the society to which they alleged

Albert Pike's paper, in which they professed entire innocence of the designs attributed to them by Campbell. A statement followed by Campbell, in which all the details of the or-

ganization are given, the names of those con-nected with it, their numbers, their residence, the names of the Assassination Committee, and the various prominent Union men already elected" to die by their hands. One of these Judge Lewis, was to be hung on one of three trees standing together within the limits of the city. If Campbell tells the truth, and we see no

The Campaign in Pennsylvania. General Lemuel Todd, president of the last Republican State Convention, having pub- placed in nomination by the Illinois Republi-

lished a complete list of the members of the can Convention last week, four are the names Republican State Committee, our political of persons who were conducates. There were friends in the different counties should pre- many candidates, but the Convention, acting pare for the active duties of the important with unusual independence and rare good contest to be decided in November. Mr. Grow Judgment, generally set them aside and took only such as seemed best qualified. The result is a ticket of unusual strength; one which will call out the entire vote of the party and be

content to be decided in November. In Grow the chairman of the Republican State Com-mittee, is admirably fitted for the post, know-ing our people intimately, and fully alive to the expedients for a despente opposition. His rare energies and solities as an organi-zer and speaker insure an efficient and fear-less canvass; and as he will be assisted by elected by a large majority. This is the course which right-minded men will at once approve and will commend itself to the party as a rule. the most experienced politicians in our party, there is every reason to expect a victorious ending of their conjoined efforts. The utmost cars should be exercised in making the nominations in the different dis-principles. It is by disregarding it, and principles. It is by disregarding it, and permitting conventions to be packed by permitting conventions to be packed by tricts and counties. Let us avoid the errors of the past. If we do, we shall win a comcandidates, that in nine cases out of ten paratively easy triumph. In the first place, we invoke our friends to the people have come to have but little to say defeat is brought about. As a general thing

remember that the best way to defeat the enhonor, by every means; the brave Union sol- come the abuse, and the demand for reform diers who scryed in that war. Without at all is so urgent, that it will not be safe much londepreciating civilians, or denying their right to a share of the honors of the well-fought tield, we have always believed, and now more fueld, we have always believed, and now more firmly than ever, that it is a primary obliga-tion laid on the Republican party, and one they cannot honorably evade, to prefer the Republican Union veteran if he is as capable as he has been brave. Plain as this obligation has been in other

contests, it assumes the weight of an impera-tive covenant in view of the nomination of General Grant in view of the nomination of General Grant as the Republican candidate for President. Governor Curtin himself, nominated as our candidate for Vice Presi-dent by such an acclamation as recalls Jack-son's, Taylor's, and Barrison's popularity, became the enthusiastic choice of our people, more because he was closely identified the comfort and care of our soldiers than be-cause of the civil acts of his administration, creditable and unapproachable as they were. Philadelphia city can be redeemed if we keep these instructive facts before us, and there is, not a county in the State to which

they do not apply, and in which they do not deserve to be considered. The Copperheads are hoping that the Re-

victorious squares conquering squalrons of 1864. We have a host of able speakers and writers, a noble brother hood of Republican

editors, and the great advantage of being kin-dred with those effective military associa-tions created during the war, and now alive and active under the instinct of defending their own interests and the inspiration of as-

serting their own convictions. Of course Mr. Grow will call together and

Hancock, the present military comman dant in the Fihl District, whoso name has been mentioned by some politicians in con-nection with the Presidency. The New York *Herada* of December 23, 1865, contained a re-port of General Hancock's speech at a New England dinner the day previous from which we make the following extract.
