MERRICK & CO.
MANUFACTURERS OF AND WHOLESALE AND
RETAIL DEALERS IN
COOKING STOVES,
HEATING STOVES and
GRATE FRONTS and FENDERS, &c., &c.
We are largely engaged in the manufacture of Grate
Fronts and Fenders, which we make in an oven com-
pact, strong, and of the best quality. This grate re-
tains its lustre for a long time, will not burn off, and
makes a much superior finish to that of Coal Tar.
We are also making Sheet Iron Summer Pieces (for
which we have applied for a patent) pressed up in a
Hydraulic press. They are much lighter than cast
iron, and much cheaper.
We claim the heaviest heating stove in the market
for the size, and use the best Coal in their construc-
tion.
Our patterns are not yet complete, but it is our in-
tention to keep a general assortment in our line.
We also took the Premium at the County Fair for
Castings generally, and we have entered in the busi-
ness of manufacturing and selling of the best
quality of goods.
We respectfully request a share of the public pa-
tronage, and would be pleased to see those wanting
anything in our line at our works.
Prices Low to suit the times.

Ruby Cooking Stove Nos. 7, 8 & 9.
THIS STOVE TOOK THE FIRST PREMIUM AT
the State Fair as a Coal Cooking Stove, and also
the County Fair. We are now manufacturing in our
factory, and make them exclusively of No. 1, Flat
Metal, and warrant them in every respect.
The Ruby has the largest oven in the market and
consumes but little fuel in baking, owing to our im-
proved Grate.
We are also making Sheet Iron Summer Pieces (for
which we have applied for a patent) pressed up in a
Hydraulic press. They are much lighter than cast

Ruby Cooking Stove Nos. 7, 8 & 9.
THIS STOVE TOOK THE FIRST PREMIUM AT
the State Fair as a Coal Cooking Stove, and also
the County Fair. We are now manufacturing in our
factory, and make them exclusively of No. 1, Flat
Metal, and warrant them in every respect.
The Ruby has the largest oven in the market and
consumes but little fuel in baking, owing to our im-
proved Grate.
We are also making Sheet Iron Summer Pieces (for
which we have applied for a patent) pressed up in a
Hydraulic press. They are much lighter than cast
iron, and much cheaper.
We claim the heaviest heating stove in the market
for the size, and use the best Coal in their construc-
tion.
Our patterns are not yet complete, but it is our in-
tention to keep a general assortment in our line.
We also took the Premium at the County Fair for
Castings generally, and we have entered in the busi-
ness of manufacturing and selling of the best
quality of goods.
We respectfully request a share of the public pa-
tronage, and would be pleased to see those wanting
anything in our line at our works.
Prices Low to suit the times.
