ROOFING SLATE! GRAND

Vol. 50-No. 22

TWIN CITY SLATE MINING

MAUPACTURING COMPANY.

B. MEWMYER, S. H. ANDERSON, J. N. SHALLENBERDOR!

OFFICE,

No. 49 Seventh Street, Pittsburg, Pa. Ir is believed that the time has come in the progress of American architecture, when the question will no longer be asked, "What shall we use for roofing?" but, "Where can we obtain the east SLATE."—

Older countries have long pince established the fact that no material is so well scapted, and so durable, as

Slate for covering buildings. Two obstacles to its general use in this country have existed heretofore first, the transition character of society, which is

necessarily opposed to permanence in architecture-and second, the great abundance and low price of hum ber. The first impediment is rapidly yielding to time and riper ideas on the subject of building, and the oth er must soon give away to the scarcity and advancing price of lumber suitable for roofing purposes. We submit a few leading advantages of a Slate food.
It is superfor to every other in appearance.

The Twin City Slate Company's Milies are in North

tial to'a good roof, and we think but little equal to it.

It is furnished at the yard in Pittsburgh, at the rate of \$12.00 a square (one hundred square feet), which with

expense of laying, will add about 25 per cent. to the cost of a shingle roof at present prices. Samples of Slate may be seen, and orders left at the

office of A. T Shallenberger & Co., Rochester, Pa.
Parties at a distance, can address J. S. Nowmyer.
