Statements: While living in the East I used several of the most Colebrated Cooking Stoves made in that part of the country, and on my arrival here, I was recommended to purchase the Crystal Palace Stove, (also invented by Mr. Anderson) as being; the best. I sid so, and used it with good satisfaction: When I saw Mr. Anderson's new Stove, I was stracted by its nost spoorance, and on examining its Oven and interior arrangements, found it possessed many advantages over all I had seen. I purchased, and have one now in use. We consider it superior to any we have ever used. It is all the inventor claims, and we think, all that could be desired in a Cooking Stove.
