CUNDALL churned for me this morning with his prize churn, he used no hot water or other unasual means of hastening the butter. In three minutes the butter began coming and in about five was ready to take out. Most patent churns are objectionable because so complicated that it requires more time to wash them than it does to churn the butter. This one can be cleaned in less time than the old fashioned dash churn. I regard it as a great improvement, and calculated to save woman much labor.

Having kept house for a long time, and used a great number of Cook Stoves of different patterns and styles. I consider J. J. Anderson's new Stove, in point of economy in fuel, ready cooking and baking for its size, superior to any we have used, and cheerfully recommend it, believing it will lender entire satisfaction.

CHAS., LUKINS.

We have one of Mr. J. J. Anderson's new Stoves, manafactured at the Rochester [Foundry, and having given it a fair trial, we find it comes fully up to all that has been claimed for it. It heats very rapidly, takes but little fuel, and is amost excellent baker. Mr. Anderson may congratulate himself on having schieved quite a triumph in the line of Cooking Stoves.
