

## LIME, LIME,

TRY IT. LIME TRY IT.

GET YOUR LIME FROM THE NEW

"MONITOR LIME KILN."

One trial will convince you that it is the best lime kiln in the country. It is at least 50 per cent better than Lime burned by the old method, and will be sold at the same price. Come and see it and try some of it before making contracts, and save time and money.

The kiln is not mixed with stone to burn it, so that it will not pollute the soil. Brick layers need not buy nothing but the best stone. Brick layers need not wait for it to get to market, for they can take it off or sell it to make their money, for they have no time to waste.

I am still afraid for those who have improved their lime kilns, for the old ones are now more in favor, the longer they are used.

To the Public.

WE THE UNDERSIGNED, HAVING SEEN THE PRIZE CHURCH, patented July 31, 1865, and Oct. 8, 1867, by the Prize Church Company, Springfield, Vermont, and being desirous to cause anything now in use, to be put in its place in this class style, do, with great pleasure, and with but little delay to the owner,

I am still afraid for those who have improved their lime kilns, for the old ones are now more in favor, the longer they are used.
