The Secretary's estimate of \$333,000,000, for the expenses of the fiscal year ending Jume 30, 1870, are to be cut down by Congress to an outside figure of \$290,000,000.

The receipts into the Treasury for the same year are estimated by the Secretary to reach \$341,000,000, ahowing a net balance of \$51,000,000, to be available to the same of \$61,000,000. applicable to the reduction of the public debt. Thus we have, upon all the showings from every quarter, good reasons to anticipate a surplus ranging from \$51,000,000, up to \$153,000,000, and which will be directly applicable to the diminution of the public obligations.
