ELDER, Darlington township. number of capitalists seeing the invention became impressed with its great utility, and companies were formed at Massillou and Akrou, Ohio, with large capitals for the proper manufacture of Commissioner. number of capitalists seeing the inventhe Dropper. But now a most important difficulty is met with; there was no machine to attach their invention to-There were plenty of good mowers in the market, Buckeyes, Russell's &c., but none exactly suited to the attachment of this great Dropper. Thus it became ne cessary to supply a machine that should dor, and don't like to stop the draught. Thus was invented the Exco sior Mower and Reaper, the great Com bined Harvester, a wonderful machine in every respect, and made exactly suit the Dropper, indeed built for it, and the only machine on which it can be said to work to perfection, and while having no superior as a mower it is unequalled as, a reaper. The manufacturers have made W. W. Knox's Implement House 137 Liberty street, Pittsburgh, the hos quarters for this machine in Pennsylva nia where inducements are made to laringes to buy direct instead of from lo-

cal country agents. Monongahela Valley R. R.-The engineers now engaged in surveying and locating the Monongapela Valley Ball-road have reached a point-some distance ibove Elizabeth. The distance to Elizaboth is twenty miles; or three miles les than by water. Everything has been progressing favorably on the illne, and bed thus far is all that could be dealed, being nearly level. No deep and the grading will be comparatively and the grading will be comparatively and inexpensive. Every, person to a few week, by a very steple; remedy, after a soing the route extends a cordial well-acting safery sevend, years with a severa long affection, and that dread disease a Commented in getting the right of way. As soon as the right of way is genuine quarts. We have seen some
specimens, which wave taken from this
lead, and although we do not pretend to
know much about such things, we can
say that it much resembles California
specimens which have been shown us.

Specimens which have been shown us.
