Private advices from that county assure us that he communication was inspired by Mr. McCracken, late Senatorial candidate, but that it is given to the press as the production of a Mr. Templeton, a Republican, and a resident of Washington Borough. The author alleges that he wassummoned to Pittsburgh as a witness in the late senatorial investigation case, and purports in the communication referred to, to give the inside history of what then and there took place. The writer in the Examiner claims

that the investigation was improperly conducted, and alleges that the facts in the case, instead of being brought to the light by the committee, were studiously suppressed on account of their 'irrelevancy.' Personally, we know nothing of what occurred before that committee, nor are we ompetent to say whether the author f the communication in the Examinr gives a true or a false history of its proceedings, but in our opinion, he seizes upon the urong time to make them public. Asa Packer's profits as a stockholder of the Lehigh Valley Railroad, arising from the recent advance of tolls upon that road on anthracite coal, are \$29,000 per annum. The increase of toll has advanced the price of coal one dollar per ton in Philalelphia.

The coal question is one of those which the workingmen will bring to defeat Packer. He is at the head of a great coal monopoly and carrying company, and will not in a single instance represent or favor a claim that can only justly be made by the masses of his region. The Democratic press throughout The Democratic press throughout the State is urging the election of a Democratic Legislature on the ground of reform and retrenchment in the expenses of the State government. But the record of that party in the last Legislature, and particularly on the question of increasing the salaries of the members to \$1,500 is against all economy in the administration of State affairs. On the motion to increase the compensation of members crease the compensation of members to \$1,500 a session, the record stands thus: Of the sixty-two Republican

an aurining sepect.

As A Packer showed himself a friend of the workingmen from 1843 to 1848, when he paid his employes in Lehigh Coaland Navigation Company's script at par and, redeemed it at a discount of 40 per cent. The script was useless to laboring men. They could not buy anything with it, and they were compelled to submit to the shave in order to keep starvation from their doors. Of course, Democratic newspapers will contend that in this, as in everything else Ass Packer has done, he was benefiting the poor man, because as "money is the root of all evil," he was doing them a service by giving them just enough to keep hody; and soul together and putting the 40 per cent, into that little private fund of his which has made the Democratic nominee for Governor.

2. An irredeemable paper currency, or one perpetually fluctuating in value, is a gigantic fraud on the people—a concentration of the evils of false weights, false measures, and worse, injurious to all classes, but especially to those who live by labor.

The Democracy should assert, with renewed vigor and determination, its old declaration in favor of a specialistis and a maner currency, convertibusis and a maner currency, converti-

busis and a paper currency, converti-ble at par into coin at the will of the holder, and should take prompt and efficacious measures to raise our bonds to where the security they offer and the interest they bear ought to place them, so as to draw greenbacks after them to par, with the least possible delay. This will relieve all classes, especially the laboring, and, augmenting the valuation of our circulation 25 per cent., give a healthy and vigorous impulse to every depart-ment of business an industry. Whosoever obtains votes under

false pretenses is a baser knave than he who obtains goods under false pretenses, and, on account of the greater difficulty of detecting and measuring the evil done, deserves severer punishment and reprolation.

7. The Democratic doctrine of suffrage requires distinct renfirmation. Democracy has always held that suffrage is not a natural right of every

er than a narrow basis of suffrage. It is not unremindful or regardless of the rights of woman, of property, and inferior races; but seeing other effective and advantageous ways in which these can have their influence on all legislation affecting their interests, at present it perfers giving the right of voting to manhood and qualifications, which will tend to create bonds of political brotherhood between the rich and poor, based on mutual interests, and to avert conflicts between capital and labor.

Some persons have endeavored to profect their dwellings by having a train of sulpher around, but to no avail. Thousands of these insects have been killed, but the number does not seem to decrease.
