LAT week, one of the most save storms occurred in sastern Pennsylvania, New Jersey, New York, New England States, and the Atlantic t generally, raising the waters i the rivers and streams to an unpred dented height, destroying life and fillions of dollars of property. The highest tide ever known on the coast of Nova Scotia was reported on the 7th inst. The amount of property destroyed thereby was simply incal culable. This event strikingly con firms the prediction made more than a month ago by Lieut. Saxby, of the British Navy. He said:

"At 7 a. m., on October 5, the moon will be at the part of the orbit which with bent the earth. Her attraction will, therefore, be at its maximum force. At non on the same day, the moon will be on the earth equator—a circumstance which never occurs without marked atmospheric disturbance—and at 2 n.m. on the same without marked atmospheric distur-bance—and at 2 p. m., on the same day. Ines drawn from the earth's centre would cut the sun and the moon in the same are of right assen-sion; the moon's attraction and the sun's attraction will therefore be ac-tually in the same direction. In other words, the new moon will be on the central acquired when in religious and

and Monday nights, the 3d and 4th, instead of Tuesday, the 5th. The storm extended from New Brunswick to the Carolinas, and from the in a belt that was not disastrously counts of the great severity of the rain oh land, the storms at sea, and the disastrous rise of the tide on the coast. The total amount of damage done cannot be accurately computed, but the loss must be estimated in millions. No such flood was ever before known in many parts of the country, except in the spring, when a heavy body of snow was on the

There does not appear to be any unusual movement of the tides along the Atlantic coast until we get up to the Bay of Fundy, where they always run high. In New York the tide was yery high on the third, but did not do much damage. From the eastern do much damage. From the eastern part of the coast of Maine and from the coast of New Brunswick, however, we have a terrible story of the loss of life and proporty, shipwreck and devastation, especially among the fishermen of the Bay of Fundy. This ways on Monday right of lest week.

fishermen of the Bay of Fundy. This was on Monday night of last week, near enough for all practicable purposes of prophecy, to the period specified by the astronomer Saxby.

On Monday night, October 4th, the Bay of Fundy was visited by a tremendous gale of wind and the highest tide over known. The destruction of property on land and sea was tremendous, and many lives were lost. The annexed dispatches give some of the details, and show a remarkable fulfillment of the prediction referred to above.

SACKVILLE, N. B. Oct. 7-Monday known. The marshes were complete ly covered. Thousands of tons of hav

the swept away.

WASHINGTON D. C., Oct. 8, 1869. By the President of the United States A PROCLAMATION.

The year which is drawing to a close has been free from pestilence; health has prevalled throughout the land; abundant crops award the labor of the husbandman; commerce and

sion; the moon's attraction and the sun's attraction will therefore be actually in the same direction. In other words, the new moon will be on the earth's equator when in perigoe, and nothing more threatening can occur without a miracle. The earth, it is or .T. seconds, chronometer. The consequence of this will be one of the husbandman; commerce and the instance of the perigoe, and mothing more threatening can occur without a miracle. The earth, it is or .T. seconds, chronometer. The consequence of this will be one of the husbandman; commerce and the mother period in wealth and in strength; peace has prevailed, and its beesings have advanced every part of the Union; harmony and fraier-highest tides ever known."

Mr. Saxby was as near correct as could reasonably be expected of a ment as the winds and storms. He was only a few hours too slow, The promised storm occurred on Sunday and Monday nights, the 3d and 4th, firstead of Tuesday, the 5th. The storm extended from New Bruns. dependence; to render proise and thanksgiving for the same, and de-youtly to implore a continuance of

young to impure a continuance of God's mercies. Therefore I, Ulysses S. Grant, Pres-ident of the United States, do recom-mend that Thursday, the 18th day of November next, be observed as a day November next, be observed as a day of Thanksgiving and praise, and his prayer to Almighty God, the Creator and the Ruler of the universe; and second, I do further recommend to all the people of the United States to assemble on that day in their accustomed places of public worship, and to unite in the homage and praise due to the bountiful Father of all mercy, and in fervent prayer for the continuance of the merciful blessings. He has vouchsafed to us as a people. In testimony whereof, I have hereunto set my hand and caused the seal of the United States to be affixed this.

of the United States to be affixed this, the fith day of October, A. D. 1869, and of the Independence of the United States of America, the ninety-fourth.

By the Provident.

U. S. GRANT. urth.

By the President:

HAMILTON FISH, Sec'y of State

The Hernet. A Washington dispatch says: At the meeting of the Cabineton Friday ast, the case of the Hornel was con-

sidered, and after consultation it was agreed to hold her. There appears be no doubt whatever that she is a uban privateer, and as was indicated n these dispatches last evening, the Administration had no alternative, according to precedent and interna tional law, but to debin her until her character shall have been determined. Nearly all the members of the Cabinet sympathize with the cause of the Cubans as warmly and carnestly as did the late Secretary city letter carriers. Their labors com-Rawlins, but in this case the line of mence at the office at 7a, m., and end duty was plain and could not be at 9 p. m., during the most of which avoided. The whole subject has at time they are assorting and arrang-

ex-Confederates, who hope to make \$2,000 a year for the faithful perform-Cuba the basis of operations." There is, of course, a great deal of well conceded that the educational discussion on this subject in official qualifications of letter carriers gener-

they had espoused, and had, in order to escape from an unpleasant the Postmaster General, after they position, run the ship into a United States port. The law in the case must take its course, and the future disposition of the ship will have to be decided by the United States Commissioner. It is held by the friends of Cuba that insamuch as she cleared from a British port, she will have to be released.

THE GENERAL LAND OFFCE young lady is gingerly walking with as just received advices from the Surveyor General at Virgina City to take a scat, and as often changing for mind, she is generally supposed to be suffering from a severe stroke of Greenar Bend, but in fully half the instances noticed there will be a look appropriate the surveyor fixed surveyor.
