FLOUR.—The receipts of western flour continue light, though the supply is fully equal to the demand, as the mills, hero appear to have the "lion's share" of the retail trade, and take the retail trade away and there is nothing left. The mills, we understand, are supplying the trade with standard where wheat flour at about \$4.50, and medium grades at \$6.0.25; good western flour cannot be sold for any less—that is, and afford a margin to the dealer. Spring wheat flours; to use a common phrash-any about "played out" in this market.

GRAIS—Wheat is weak and drooping, with condiderable offering 'from the West; we are cognizant of one of our miles having bought 5,000 bushels prime red at \$1,20 Gl. 33. Choice white will bring \$1,30. Choice white will bring \$1,30. Choice white will bring \$1,50. Outs in rather better demand but unchanged— 17.6 45 on wharf and track, and for store. si,30. Casts in rather other definant out unchanged—17645 on wharf and track, and 50 in store. Hye is dulk and nominally unchanged at \$60,105, cash. Prime ear own is wanted for feeding and will bring, \$1; but shelled, notwithstanding the stock in this market is light, is dull and tending downward. Barley is quiet and unsettied, \$1,20,61,30, as to quality.
