We take it that these facts are appreciated by the Republican senators and representatives. If not we have small hopes of any change at Harrisburg. They seem to us to be so clear as to admit of no dispute. We barely carried our State ticket last fall, owing to the indifference of Republican voters. Next year those who were indifferent last fall will act with more decision and in open hostility. The truth is if we had depended in October on the vote in Republican strong-holds, the result in the State would have been reversed. Nothing could have been reversed. Nothing could have been more marked than the disapproval of the course of our loose politicians and legislators, by the party in almost every Republican county of the State. Throw Luzerne and Philadelphia and one or two other counties out of the scale, and where, would our Republican victory have been? As it was, as we have repeatedly asserted, the desire
