it necessary in order to do Mr. Quay justice, to give the public a few intances of his political triumphs in and about Harrisburg. We intend to give other instauces in due course of time. This week, however, we regret to say, our duty as a public journalist obliges us to lay before our readers, not a triumph, but a defeat which our chivalrous little neighbor sustained some time ago in the eastern portion of the State: Early in 1868 the friends of Governor Curtin in Pennsylvania began to move in his behalf for the Vice Presidency. He was found to be the almost unaninous choice of the Republican party of this State for that office. In the selection of district delegates to the nominating convention at Chicago Mr. Quay was not among the favored ones. He then made an effort to have himself chosen as one of the delegate: at large for Pennsylvania to that Conention. proved by his intimate perso riends. Ir is stated that on Thursday last orders were issued to the officers commanding the troops stationed at the various forts in New York harbor to iold their forces in readiness to move next day, supplied with ten days rations. The Quartermaster's and Commissary Departments were busily engaged on Wednesday in preparing Senate, but a critical reading of his are kept profoundly secret. Similar orders were issued to the officers at New London, Conn., and Sackett's Harbor, N. Y. There are about fifteen thousand troops in the fortifications of New York.

Some time the Fenian forces, issued an order to the brotherhood to the effect that may, and how he may not, vote on "before another winter has passed away decisive measures would be resorted to by the Fenian forces to achieve the object of the brotherhood." For the past two months owing to the absence of some of its great activity has existed at the Fenian headquarters in New York and other cities, and immense numbers of men have been enlisted, who have would find work to do in achieving the independence of Ireland. It is d enough to include arnediately transported to the Canadian border in order to check mate the possible Fenian raid. Another report is to the effect that the troops are to capture another Cuban expedition which has been gathering in large force not many miles distant from New York city. The troops left their quarters early Friday morning for their destination. THE battle of the people with the

corruptionists is to be fought out at larrisburg on the assembling of the Legislature. The "unexpended balance" is worth to the ring somewhere between one and two hundred thousand dollars annually. The money should go into the treasury and not the pockets of individuals. It will be seen at once what the significance of the "Mackey slate" proclaimed by the Beaver Radical, is the head of the ring in this interest is "Don" Cameron, who has set himself up at Harrisburg to control the Legislature and distribute the offices. Money and his promises put the "Mackey slate" through last winter, whether his promises will go as well this time as they did then, remains to be seen. Some there are, we conclude, who will hesitate to accept them again. But getting the control of the "unexpended balance" another year, "Don's" ring count on putting

through the infamous tax bill which failed in their hands last year. A more corrupt combination, a "ring" for more infamous purposes, has not Thieves. It even beats the Eriering.
It is this that the people will have to fight at the opening of the session.

The End of A. D. Richardson The Death-Bed Marriage.
A. D. Richardson died on Thursday. A. D. Richardson died on Thursday, morning last, in New York, from a bullet wound received at the hand of a man named McFarland, several days previous. He bore up manfully and courageously to the end and met death calmly and with resignation. On Tucsday last he was solemnly married in the presence of a large number of distinguished gentlemen to Mrs. McFarland, the divorced wife of the murderer, the object of his love and cause of his death. In a few short hours after the marriage the groom was a corpse, and the bride was frantic with grief. McFarland, the murderer, received the intelligence of the dread consummation of his awful deed of prograps and wickediess with

GENTLEMEN: I am sorry I cannot
accept your invitation to attend the
re-union of the soldiers of the Western armies—Gumberland, Tennessee
Ohio and Georgia—at Chicago, on
the 16th inst. As many of the regiments sent out from New York,
while I was governor of that State,
served in these armies, I feel a personal as well as a national pride and sonal as well as a national pride and interest in this gathering.

To the Committee of Invitation. The Unwritten Chapter.

To the editor of the Pitte, Commercial You are on the right track in the matter of the bargain and sale con-nected with the organization of the legislature of 1867 and the election of Cameron Senator. The history of the betrayal which led to this result, the amount of money it cost and to whom paid, is yet to be given to the pub iie. You are entirely correction sav-ing that those who are engaged in "putting through" the Mackey slate," "putting through" the Mackey same, as Mr. Quay calls it, were foremost in that infamous transaction. If you are at all at a loss about the particulars, Mr. Editor, please call on me.

Gov. Geary it is stated, has now under consideration no less than sev-enty-eight applications for the parconvicts in Pennsylvania quilty of murder below the second degree, besides almost innumerable applications for offenders of a less heinous class. Every application for pardon, as soon as received, is referr-ed, with the papers in the case to Attorney General F. Carroll Brewster, who invariably, after due exam ination, reports adversely.

—Gov. Geary has just approved the bill, passed last winter, relative to the payment of taxes on unseated lands, requiring the County Treasurers to keep a receipt book to enter the receipts of the payment of taxes on unseated lands, certified copies of said recorded receipts to be the evi-dence of payment. It also allows owners two years from the present date to record in. This is very important.

-Deer hunting in Clarion county is very profitable just now. On Thursday of last week, Mr. Strattan, of Straftanville, shot three, one of them a fawn, without moving from the spot where he delivered the first shot. On the 19th inst., Mr Isuac Fensetemaker, of Clarion, shot a buck in Pilot township, which weigh-ed, when dressed, 210 pounds, which is said to be one of the largest ever killed in that section.
