In order to give the Governor's message entire, in this week's Anors we are obliged to defer much other interesting reading matter.

The inauguration of Oovernor Geary takes place on the 18th inst. and already the Senate has appointed a committee to make the necessary armingements for the event. There will be a large attendance on the

occasion, and several military organizations from different parts of the State have signified their intention of participating in the ceremonies. In ho evening the inauguration ball will be held at Brant's Hall.

IT is understood that on the occasi of the arrival of Mr. Penbody's remains at Portland, the United States government will be represented by its naval officers only. It would not be convenient for the head of a department to go at this time, and the suggestion to that effect has,

after consideration, been rejected. It is possible the Goyernor of Massachusetts may be present to receive the remains and to take part in the ceremonies.

If they are afted to face the truth—it the case has presented as peets they dramate not of, whereby they themselves are virtually placed on trial --their course can readily be understood.
