Correspondence EDITOR ARGUS:-In looking over the ast number of the Bearer Radical, I saw a paragraph in the 'local column,' calling to "Letters from the People printed on their editorial page. The first addressed to the Pittsburgh Commercial is intended for "sarkasm," as A. Ware would say; but is, I think, a miscrable attempt at it. Here is the concluding

Very Truly Yours &c.

J. H. T. Jackson. The great wonder to me is, how such a letter could be published in the Radical. If I had been "a friend at your elbow" I would have suggested that you Mr. Radical man must have changed to be a Republican too, judging by the results gained in Beaver county at the last Ticket had an increased majority, in one

election, where, by your influence our stance, of over 1000 votes-backwards. I know at the time it was a matter of dispute as to how this result was brought about; so meattributed it to the disaffected Germans, on account of sundry "Black Dutch" articles which were published in the Radical. Others sought to blame the "Whisky Ring,". While ye othersattr:buted it to 'church' matters. But we have the very best of reasons for believing that none of these were the true reason.

In 1868, our party Ticket was elected by such a majority as was never given in Beaver county before. The Radical was inaugurated in 1869—assumes to be the organ and mouth plece of the partyhas its own candidates put forward and ominated; i. c. such as could be made use of for private ends. Suspicion is used against one of the nominees: investigations (?) followed, the matter is 'soaped' over and the 'show goes on;' people begin to think for themselves; ididate under a cloud; somebod ust be sacrificed; votes are 'truded,' and one of the opposition must be elected to save 'our candidate.' Now look! The Radical has been in operation one year, and from an absolute safety has reduced us to an absolute uncertainty. Before, we had 1000 majority, and a Republican minution was considered the equivalent of election. Now, we do not know ow, when, or to whom we may be sold.

how, when, or to whom we may be a sufficient to the people look at this matter, and ponder over it, and they cannot full to put the 'saddle' where it belongs.
