THIS is a bad winter for "snakes." Several rather alimy reptiles have been uncovered at Harrisburg during the present session of the Legislature but so far, the vigilance of the anti-ring papers of the State have so exposed and directed public attention speedy death.

In the Ohio Woman Suffrage Convention, on Thursday last, the Committee on Resolutions reported reso-lutions asking the Ohio Legislature to take steps to summit the question of female suffrage to the voters of Ohio at the next full election. The resolutions were discussed by Mr. Stewart and Mrs. Longley, and adopted. At the evening session speeches were made by Miss Bates, Mrs. M. M. Cole and others.

THE leaders of the "Treasity ring" in this Stateare "striking out from the shoulder', at the present time in rather a frightful manner. While some of them are sueing for their characters, others are abusing every person who is supposed to have had anything to do with putting the "spous" beyoud their reach. They realize just now that their political prospects have gone, as Jim Fisk would say, "where the woodbine twineth."

Similar laws and for the same locality, were vetoed by Governors Packer and Curtin when they filled the Executive chair. The howl therefore, now raised against Gov. SENATOR Summer has been "Interviewed" on the Cuban question. The Senator is strongly opposed to recognition of belligerent rights as the case now stands, and gives as one reason that it would instantly involve the United States in a war with Spain, and as a consequence a financial crash would ensue that would shake the pillars of the Government to their very foundation besides, he is not sure as to which would come out first best in the event of a contest between the United States and Spain. Mr. Sumner believes however, that both Cuba and Canada will be penceably annexed to the Union within ten years, and that we shall absorb Mexico, the West Indies and the whole of the North American continent. We have a moral right not only to this continent but to the whole of this hemisphere, and we shall acquire both.

THE story set affoat by the "ring organs" that Gen. Irwin was brought before 'the Treasury investigating committee, and that he "utterly refused toanswer any questions touching his disposition of the public money under his control," proves to be a lie made from whole cloth. Gen. Irwin has not been sworn by the investigating committee, nor has he been ask ed to be sworn; he has, therefore, very properly, not answered any ns "touching the use of public money." nor has he been asked to answer any by those authorized to interrogate him on that subject. Desiring to aid the committee in their search, for the facts, Gen. Irwin, unasked, handed the committee i written statement bearing on the subject, which was handed back to him on the ground that until Mr. Mackey's examination was concluded, no other steps in the investigation would be taken.
