THE adoption of the Fifteenth mendment secures to the Republican party in Pennsylvania about 15,-000 votes. This will more than offset he delection in our ranks caused by driving away the treasury plunderers. We do not know yet what course these latter may take—whether they will simply bushwhack the Republian organization, orgo bodily over to the enemy. A little time will tell.

A CABLE dispatch received from Boston, February 26 states that Minister Curtin will take charge of the remains of Mr. Burlingame, in connection with members of the Chinese Embessy. The body is to be embalmed and lie in State at the Amercan Legation and finally be sent to America in charge of representatives of both China and the United States. It is said the negotiations commend with the Czar of Russia will be completed by the Embassy and they will then return to China. It is understood Mr. Burlingame caught a heavy cold, which culminated in a congestive chill, resulting in death.

THE Beaver Radical is quoted in the "Border county" papers as a sup-porter of the bill now before the Legislature, which proposes to take two or three millions of dollars out of the State Treasury, and give that sum to the Border county people for losses sustained during the war. There is nothing strange in this. The Radical has never been known to favor an nomical measure, nor to oppose plundering scheme, since it was cu-

THE readers of the ARGUS will look in vain through its columns this week for the usual list of real estate advertised to be sold at public sale by the Sheriff. That officer makes use of the Radical in Beaver, and the Herald in New Brighton, for the purpose of New Brighton, for the purpose of letting the public know what he has seized upon and who he intends selling out. Let it be understood, therefore, at the outset, that this departure from the custom of all former sheriffs of this county, in going away from the custom of all former sheriffs of this county, in going away from the custom of all former sheriffs of this county, in going away from the custom of t of this county, in going away from the county seat to do his official advertising, does not proceed from any ersonal troubles between Sheriff Greening and the Argus. It has never attacked him in any manner, nor ha its editor treated him disrespectfully n word or deed since he became public officer; and even before he became the county's Sheriff, the ARous' language toward him was genteel in comparison with the Radical

his present organ. In the absence, then, of any cause of offence from us, why does Mr. Grabling institute a new order of things and publish his sales in papers that have comparatively no circulation in the country? The purpose of the law which obliges him to advertise the real-estate of unfortunate debtors, is to attract as many people as possible to the sale, so that bidding may be spirited, and as much money realized from the sale of the real estate exposed as can be. Where but few persons know of a sale of this character, but few attend, and the result is, great injury is often done to the person whose property is bid off. While Sheriff Græbing, therefore may then, of any cause of offence from us,
