Richmond, offering to surrender the rent or damages shall be relinquished. For some time the Government has were pursued through the town by been holding this property on the the mob and murdered wherever ground that it belonged to the Con- caught, men, women and children federacy. It was purchased by the city of Richmond carly in the war, and presented to the rebel governmont for a residence for its President. Proof of this purchase and donation has, however; been lost.

Ar flietime of the discharge of soldiers who, by the causalties of war, had lost an arm or a leg, the Government supplied to each an artificial limb, since which time no provision has been made for them, and the limbs are now mostly worn out or unserviceable. The House a few days of the sensational dispatch which ago, massed a bill giving such soldiers every five years an artificial limb, or the price, thereof, which is \$75 for a leg and \$50 for an arm. The Senate afterwards passed the bill, but siruck out the provision giving money in any case. The Conference Committee of the two Houses on Tuesday agreed upon the original House bill, which will now become a law. ... It is estimated that the law will require an appropriation of \$100,000 every five years.

THE noticable event in Washing ton last week way the grand reception given by the President to a deputation of Indians who are at present at the cupital. The chiefs of the Indians were in full costume, and had with them onite a number of sources. The members of the cabinet: their wives, daughters, &c., and the foreign

ministers and their families also honored the event with their presence After a time spent in hand shaking a spleadid supper was indulged in by all present. We fancy it was slightly romantic to see Red Cloud and Spotted Tail cating berries and cream with Mrs. Grant and Mrs. Pish. while the picture would be not a little heightened in witnessing President Grant and Secretary Cox promenading armin-arm with a couple of well formed dusky squaws.
