-----THE Democracy of Greene county, through a committee, have put Capt. William McClelland of Lawrence Co. into the field as their candidate for Congress. It is estimated and genurally believed, that this movemen comes from the opponents of our townsman, Sam. B. Wilson Esq., whom they desire to defeat as the going over to the Democrats, and the Democratic congressional candidate of the 21th district. They may, possibly, head Mr. Wilson off, but if has suffered no occasion to transpire they do so, they will not have suffer- | without avail to assault the member ed much grass to grow about their feet during the performance.

During the early part of last week an effort was made by Senator Summer to have the bill taken up but his motion to do so was defeated by a large majority of the Senators present. Mr. Summer seems to have charge of the matter, and as he is one of the most persistent men in the country, it is possible he may, never-

The Republicans of my district are aware that office, and not for Mr. Robert W. Mackey, the caucus nominee. This, in itself, is deemed by some to be a great offense. Had the nomin-ation been made by the people them-selves, I certainly would have re-spected it. The Indians have not been in the Big Sandy country for over three years, and their presence creates much un-ensiness. There is good grass on the Sandy, and this range brings the sav-ages within fifty miles of the Union Pacific Railroad. All the Indians on the war both in the low line are of the war path in that locality are said to belong to the Arapahoo Nation. Several other tribes have evinced a determination to become trouble-
