dence in the complete triumph of the Republicans in the ensuing elections. On the same day, Congressman Porter, of Richmond, explained to Gen. Grant the situation in Virginia, assuring him that the Republicans are the strongest party in that State.

THE great fault in the French military organization—as we gather from the reports of a majority of the newspaper correspondents—is want of discipline. This is evident in everything now more than ever. The arful lack of discipline in the National Guards and the Mobiles is witthought this evil is about to be remedied, as Gen. Trochu has ordered the strictest discipline to be observed in the future, accompanied by four hours' drill each day.

of a few days for those who desire to invest in them. It is not expected that much will be done by Secretary months to come, the present time behad the compulsory clause been relittle difficulty in negotiating the new bonds at par.

Ir will be remembered that the f last Congress passed a law relative to a reduction of the army, in which it was provided to pay all supernumerary officers of the army who would voluntarily tender their resignations, a year's salary. This law is said to be working well. It is ascertained from the records of the Department that since the publication of the last Army Register was issued the army has been reduced by the retirement of one hundred and eighty-eight officers, most of these having resigned to avail themselves of the privilege granted by the law in question.

correspondent was in error as to the views of Gen. Grant relative to the situation of Paris. A few days ago he reported the President as entertaining the opinion that Paris would not be taken. He is now reported as expressing the belief that the capture of that city is inevitable, and says that a city as large as Paris, filled with women and children and non-combatants, to the number of a million at least, surrounded by a strong enemy and cut off from supplies, &c., must fall sooner or later, the event only being a question of time.

WE learn that fifteen United States fishing vessels have been seized for smuggling on the coast of Nova Scotia. They were laden with tca and tobacco from the United States. The now cruising in force in the waters around the coast of the lower provinces, and it is determined to put an entire stop to the snuggling which has says "the Journalist who wants office been going on for some years past. The Hon. Mr. Morris, Minister of Marine and Fisheries, is on an inspection tour, and before next session will prepare new measures for the more complete protection of the fisheries of the Dominion and the prevention of smuggling.

Moltke of the curbonds. The opinion is expressed that rent information furnished by his detectives has been priceless; and the tained in the bill there would be but men engaged in furnishing it seem to have devoted themselves to it with all the method and thoroughness peculiar to Germans in matters of business. The correspondents all testify

to the intelligence and information of the Prussian common soldiers, while the officers are thoroughly up in every branch of their duties. The secret of the effectiveness of the Prussian army is its organization. The smallest and most trifling details receive the closest and most careful attention. Nothing that concerns the discipline, arms or health of the soldier is neglected. Every man is instructed not only in his own duties, but in those above and below him in his regiment. Lieutenants are made competent to act as captains, or colonels, as the exegencies of the campaign many requires. The control of the campaign many requires the campaign many r

The North River Canal, from Lexington to Balcony Falls, a distance of 22 miles, has been so utterly runged that it is feared it can never be reconstructed. Not less than \$100,000 will cover the loss sustained by the corporation of Lexington. The flood in Nelson County was very disastrous; the town of Scottsville, on the James River, Kanawha Canal, was almost washed away.

HABBIBUEG, Va., Oct. 5.—Accounts continue to come in of the destruction of property and the loss of life in the lower valley of Virginia, and are truly heart-rending. At Castleman Ferry, Jefferson County, the destruction is complete; all the houses, sixteen in number, were driven from their moorings by the surging waves, and the main building of a hotel and a storehouse alone were left to mark the spot. The Bessey Company loss heavily, the whole of the treatle work and all the of the State of Maysland returned upon the treatle work and all the of the State of Maysland returned upon the restriction of the county.
