Letter From Mulster Cartin on the Subject of Revising the State, Constitution, HARRISHURG, November 18.—A

private letter from Governor Curtin has just been received here containing the following relative to the proposed revision of our State Constitution.

After stating that he has not par-ticipated in political discussion since he has been in Russia, the Governor in your last letter. I am rejoiced to learn that an earnest effort is about to be made to secure a general revis-ion of the Constitution of Pennsylva-nia by calling upon the people of the State to exercise their sovereign pow-er through the channel of a Reform Convention. Surely such a move-ment must meet with the cordial ment must meet with the cordial approval and enlist the positive efforts of the best men of both parties.

For the necessity of thorough reform is painfully apparent to all. It is not in any sense a question of party polities, and it should be proserved from the dangers of mere partisan direction. The revision of the fundamental haw of a great Commonwealth is the Pennsylvania, after the lapse of a third of a century embracing decades of matchless progress, is a work of no common magnitude. It is nost vital to our vast and varied material interests, and equally so to is most vital to our value and varied material interests, and equally so to our future honor and advancement, that the public should be enabled to perfect their sadily needed reforms in-the most unblassed and dissipassionate the most unbiasses and disspassionate manner, and therefore special elections, as far removed as possible from the annual political struggles, should be held, not only for the election of dulgates to the convention but also for the ratification or rejection of the appearance which may be appared. amendments which may be matured and proposed.
"Such a Convention at this time could not fall to elevate the character of our legislation and to redeem-

ter of our legislation and to redeem-our political system from many of, the debauching influences which have become so closely interwoven with it. I would enforce a just def-erence to the popular will in the en-actment of laws and in the exercise of all delegated powers. When the will of the people is respected, the good name add the prosperity of the Commonwealth are hever imperil-led.
