His analysis of the Book of Books impressed one very readily with the belief that he had given its history, philosophy and poetry, more thought than a good many lawyers we wot of. The lecture itself was not only a very i: structive one, but delivered it a style that made g deep impression of all who lear lit. Mr. Swoope has a finely modulated voice, is graceful in gesture, and malways sure to get the right word in the right place. While in Beaver, Mr. Swoope enjoyed the hospitality of John F. A Nad Gase.—Yesterday a most affecting sight was witnessed at the Allegheny Depoton the arrival of the accommodation train on the West Pa. Railroad. Some days ago a young man calling himself Henry Hunsecker, who stated that farm of Mr. Lane, near Lincoln Station, on the West Pennsylvania Railroad, and asked for work. The con-vulsions continued all day on Sunday and on the way down on the train yes terday. During the continuance of the paroxysms the unfortunate man presented a most horrible appearance, foaming at the mouth and barking like a dog.
