

The Beaver Argus

1. WASHINGTON, March 24, 1871. This excitement throughout the country, in relation to the removal of Senator Sumner from the chairmanship of the Foreign Relations Committee—a position which he filled acceptably ever since the Republican party came into power—continues to grow.

On the 14th inst. a session was convened in the Senate on the introduction of a resolution by the Senate sympathizing with Sumner Sumner, and deploring the action of the United States Senate in removing him from his position on the Committee of Foreign Affairs.

Mr. Billings, one of the ablest and purest Republicans in the Senate, and the mover, and the resolution reads as follows: "Resolved, That with profound regret we look upon the action of our Senators in Congress in removing from the chairmanship of the Committee of Foreign Affairs, Mr. Charles Sumner, from the chairmanship of the Committee of Foreign Affairs."

This election held in New Hampshire on Tuesday last week for Governor, members of Congress and the Legislature, resulted in a victory for the Democrats. The Government, we believe is still in doubt, but the Democrats have certainly elected a majority of the State Senate.

As almost without exception the Republican press of standing and influence interpret the New Hampshire election as a pointed rebuke to the Senate and Executive for their treatment of Sumner, it is not surprising that there must be a change of policy. No administration that substitutes Simon Cameron for Charles Sumner can expect to carry anything with the people.

Some of the political admirers of "Boss" Tweed—a Democratic leader in New York—have taken measures on foot for some time past to erect a statue in honor of their chief. Mr. Tweed, from some cause or other, got ashamed of the whole thing a few days ago, and ordered the movement to be discontinued.

The Commissioners sent by Congress to visit San Domingo and report upon its geographical, political and social condition, are on their way home, and will shortly be in Washington. The Commissioners are Messrs. Wade, White and Howe. A report has reached the United States that the Commissioners are not exactly of one mind on the question of annexing San Domingo to this country.

STANLEY as it may seem, is nevertheless true, that Spain has, on two occasions lately offered to sell Cuba and Porto Rico to the United States. Before General Prim was assassinated he made an offer of these islands to General Slesick, our minister to Spain, for two millions of dollars.

LATE advices from Harrisburgh, confirm what we have suspected for some time past, viz: That a portion of those who were making the most noise about the Tammany nomination, were the delphic Committee.

AFTER Napoleon's capture at Sedan, the Empress Eugenie fled to England, since peace has been declared, the Empress has been released as a prisoner by the Prussians, and permitted to join his wife and son at Chislehurst, where she will reside for the present.

A SYRACUS character named "Bill" Forester, had been arrested by the police authorities of New York. They seem to be satisfied from evidence in their possession that he is the murderer of Mr. Nathan, who was brutally assassinated in that city about one year ago.

A WASHINGTON correspondent tells of a member of the House of Representatives, who has been elected to the Senate, and who has been elected to the Senate, and who has been elected to the Senate, and who has been elected to the Senate.

THE political troubles in Arkansas seem to be drawing to a close. Lieut. Gov. Johnson has resigned his office, and Governor Clayton for the second time within two months, has been elected United States Senator by the Arkansas Legislature.

PARIS is in a blaze of excitement. Revolution seems imminent. On the 17th President Thiers issued a proclamation calling for information, and the contents of Montaigne had planted their guns so as to demolish the dwellings of their fellow citizens.

THE result of the election in New Hampshire is a substantial Republican defeat, and has, of course, taken away from the Democrats in Washington the support of those who were best informed, and who were best informed, and who were best informed, and who were best informed.

PARIS, March 19.—The National Guards Committee is master of Paris. The Departments of the Interior and Justice and Prefecture of Police are occupied by the insurgents. General Grant has been murdered by the troops.

From the quantity of marble rudely hewn in the shape of non-descript men and things that has been collected in the Capitol at Washington, one would be apt to suppose that the Government was gathering the materials for a national Lincoln.

THE position of General Butler on account of the course pursued by him in the late insurrectionary States, has no bounds. A resolution introduced by Mr. Sherman, and which was not entirely satisfactory to many Republicans, passed the House by a vote of 123 yeas.

THE Greek Government has received intelligence of the destruction of one of the brigand bands in Acarmania under the leadership of Konstantin and Gabriel. The former surrendered to the authorities, and the latter, with two of his followers, were killed.

A portion of the preliminary report of the ninth census has been sent to the Congressional printer. The reports from only three States, Mississippi, Texas, and California, are available.

THE House of Representatives has passed a bill for the relief of the estate of John W. Forney, which was introduced by Mr. Sherman, and which was passed by a vote of 123 yeas.

THE weather still remains very quiet and warm, and the farmers in Maryland and Virginia, are making good time in plowing and putting in their crops, and the weather is so favorable that they have never seen such fine weather as we have had so far this season.

It is possible that some hardy and adventurous man would hardly have been able to follow. We see in this election the cause of alarm, but a warning note to the Republicans elsewhere, that organization, usefulness, patriotism, and ability to the cause, are as essential as notes heretofore.

One solitary Pittsburg newspaper among all that have come to our notice in the time of the present session, to approve the appointment of Simon Cameron, to the place vacated by the Massachusetts Senator, is the Pittsburg Courier. The editor of this paper is a man of high character, and his approval of the appointment of Cameron is a strong recommendation.

We call upon the President to tread like the brave and magnanimous man he is. As a matter of fact we will grant that by the far larger part of the Republican press of the country, the removal of Sumner from the chairmanship of the Foreign Relations Committee is a matter of course.
