I have concluded to have two sessions in the year, of five months each, instead of three of three months each, as heretofore.

Many of our best schools are returning to this division of time, and with decided advantage to the gaptil. It saves nearly a month of time now lost in vacations and arranging of classes, and gives time to complete in one session many studies now interrupted by the three-termarrange ment. The cost is the same—a pupil now paying \$10, a session for three sessions, will pay \$15, a session for two sessions.

A full corps of experienced tenchers will be employed, and our aim will be to secure thoroughness in every, branch of study & Pupils in music will be received who do not enter as pupils in other branches, and we hope for even more than our usual success in this department for the coming year.
