But It is not our intention to discant on the horrors of Dyspepsia. To describe them truthfully is simply an impossibility, but it is not possible to point out a remedy. We have said that dyspepsia is perhaps the most universal of human diseases. This is emphasically the case in the Uni-ted States. Whether this general pre-valence is due to the charachter of the food, the method of its preparation, or the hasty manner in which it is usually awal-1142 hasty manner in which it is usually awal-lowed, is not our province to explain. Try it yourself, and when it has failed to fulfil the assurance of its efficacy given by the proprietor, than abandon faith in it

LET IT BE REMEMBERED. first of all, that HOOFLAND'S GER-MAN BITTERS is not a rum beverage. This is not a mere assertion. The extracts from which they are compounded are pre-from which they are compounded are pre-pared by one of the ablest of German chemists. Unlike any other Bitters in the market, they are wholly free from spurit-uous ingredients. The objections which hold with so much force against prepara-tions of this class, namely—that a design of tions of this class, namely—that a desire of intoxicating drinks is stimulated by their use, are not valid in the case of the German Bitters. So far from encouraging or inculcating a taste or desire for inchriating beverages, it may be confidentially as-serted that there tendency is in a diramet
