WHO WAS ITS BOTHER?

For adoption at any one action,
A beautiful female child.
With golden hair and edition fair
As the snow-drift underly.
Its eyes are blue as the designs thue
Of the breezy summer there.
Come, take it away for produce, I pray,
A full surrander gives.
"Who was in reschere" in that what you say:
Well, really i cannot the.
She was here just one month, and went away,
Before she had got quite well.
She never and, or Urina medical.

She never said, or Bring anglead, Of its father one word to be. But the bitterest tears that ever were shed Baptized it on my knowing.

And she turn d again and again to kiss its lips ere she went away. "At last, O, God! has it come to this?" Was all that she could say.

Then over her eyes she classed her hands, And forth from the floor she feet; And who shall say if now she stands With the living or sleeps with the dead?

Then who will have this image of God,
With a shal that cannot die?
It is chesper than anything also He hath mad
Ye no one comes to buy.

A poodle dog, a narodnet.

But God's own likeness in this sweet child.
With a soul to lose or wisk,
is offer if or nothing at all, and yet
The bids come slowly in...

And now to (loo, it you dare:
Yes, six Him to show you have you can serve
His bridge and your fellow men,
And his amount must be that you shall see
There would repose with
Yes admitted to the your fellow
And infant three women old;
There is nothing to pay, het take it away,

DYSPEPSIA PREVAILS almost universallly.

Nearly every other person you meet is a victim, an apparently willing one; for were this not the case, why so many sufferers, when a certain, speedy and safe remedy is within the easy reach of all who desire to avail themselves of it? But the majority will not. Blinded by preju-dice, or deterred by some other unexplained influence, they refuse to accept the re-CLEVELAND & PITTSBURGH RAILROAD.

They turn a deaf ear to the testimony of the thousands whose sufferings have been alleviated, and with strange infatuation, appear to cling with desperate determination to their ruthless ormentor. But says a dyspeptic: is this remedy? to which we reply. This great alleviator of human suffering is alnost as widely known as the English language. It has allayed the agonies of thousands, and is to-day carrying comfort and encouragement to thousands of others. The acknowledged panacca is none

DR HOOFLAND'S GERMAN BITTERS. Would you know more of the merits of this wonderful medicine than be can learn ed from the experience of others? Try it yourself, and when it has failed to fulfil the assurance of its efficiety given by the proprietor, than abandon faith in it. LET IT BE REMEMBERED, first of all, that HOOFLAND'S GER-

MAN BITTERS is not a rum beverage. They are not alcoholic in any sense the term. They are composed wholly of heapure juice or vital principle of roots This is not a mere a sertion. The extracts from which they are compounded are prepared by one of the ablest of German chemists. Unlike any other Bitters in the market, they are wholly free from spirit-uous ingredients. The objections which hold with so much force against prepara-tions of this class, namely—that a desire of intoxicating drinks is stimulated by their use, are not valid in the case of the German Bitters. So far from encouraging or inculcating a taste or desire for Inchriating beverages, it may be confidentially asserted that there tendency is in a diramet ically opposite direction. Their effects

BENEFICIAL ONLY the nature, treatement of Spermatorrhea, or Seminal Weakness, Involuntary Emissions, Sexual Debility and Impediments to Marriage generally; Nervousness, Consumption, Epilepsy and Fits, Mental and Physical Incapacity, resulting from Self Abuse, &c.

The world renowned author, in this admirable I ceture, clearly proves from his own experience that the awful consequences of Self Abuse m.y be effectually removed without medicines, and without dangerous surgical operations, bougies, instruments, rings or cordials, pointing out a mode of cure at once certain and effectual by which every sufferer, no matter what his conditron may be, may cure himself cheaply, privately, and radically. Thus Lecture cell prove a hoon in thousands had thousands.

It is one of the remarkable facts of this remarkable age, not merely that so many persons are the victims of dyspepsia or indigestion, but its willing victims. Now, WALTHAM WATCHES we would not be understood to say that any one regards dyspepsia with favor, or feels disposed to rank it among the lux-WALTHAM uries of life. Far from it. Those who have experienced its torments would scout such an idea. All dread it; and would gladly dispense with its unpleasant familiarities. Mark Tapley, who was jolly under all the trying circumstances in Waltham Watches, Waltham Watches which he was placed, never had an attack of dyspepsia, or his jolity would have speedily forsaken him. But it is not our intention to discant on the horrors of Dyspepsia. To describe them truthfully is simply an impossibility, but it is not possible to point out a remedy. We have said that dyspensia is perhaps the most universal of human diseases. This is emphatically the case in the United States. Bitters stand without an equal, acting promptly and vigorously upon the Liver; they remove its torpidity and cause healthful secretion of bile—thereby supplying the stomach with the most indispensable elements of sound digestion in proper proportions. They give tone to the stomach—stimulating its functions, and enabling it to perform its duties as nature designed it should do. They impart vigor and strength to the entire system, causing the patient to feel like another being—in lact giving him a new lease of life.

use where a slight alcoholic stimulent is required
in connection with the well-knowfs tonic proper

Now we desire the reader to distinctly understand that this extract of the Mandrake is many times more powerful than the Mandrake itself. It is the medicinal virtues of this health-giving plant in a perfectly pure and highly concentrated form. Hence it is that two of the Podephyllin Pills constitute a full dose, while anywhere six to eight or a handful of other preparations of the Mandrake are required. The Podophyllin are required. The Podophyllin

The injurious results which invariably follow the use of mercury is chilrely avoided by their use. But it is not upon the Liver only that their powers are exerted. The extract of Mandrake contained in them is skillfully combined with four other extracts, one of which acts upon the stomach, one upon the upper bowels, one upon the lower boxels, and one prevents any griping effect, thus producing a pull that influences the entire digestive and allmentary system, in an equal and harmonious manner, and its action entirely tree from nansea, vomiting or griping pains common to all other purgatives.

Efforts have been made, at different times during the past six years, to establish a State Normal School in this district, composed of the counties of Beaver, Allegheny, and Butler. While nothing definite has been accomplished, the evidences are that the project will be earnestly prosecuted within the next few years. The friends of education in the meantime should make some provision for the establishment of a Training School for the teachers of the county. There are hundreds of young ladies and gentlemen who are desirous of qualifying themselves for the business of teaching, and who would be glad of an opportunity to enter a first-class or well conducted Normal School, if within their reach and means.
