The Fatigue of Washing Day no Longer

Dreaded, but Economy, Efficiency, and Clean Clothing, Sure. in calling public attention to this little machine here enumerated:

It is the smallest, most complext, most portable, most simple in construction, most easily operated. A child ten years old, with a lew hours practice, can thoroughly comprehend and effectually use it. There is no adjusting, no screws to annoy, no delay in adapting? It is always ready forms: It is a perfect little wonder? It has miniature giant, doing more work and of a better quality, than the most elaborate and costly. One half of the labor fully saved by its use, and the clothes will last one half longer than by the old plan of the rub board. It will wash the largest blanket. Three shirts at a time, washing thoroughly! In a word, the abluttion of any fabric, from a Quilit to a Lace Curtain or Cambric Handketchief, are equally within the capacity of this LITTLE GEM1! It can be fastened to any tub and taken off at will.

No matter how deep rooted a prejudice may exist against Washing Machines, the moment this little machine is seen to perform its wonders, all doubts of its cleafising efficacy and utility are hanished, and the doubter and detractor at once become the fast friends of the machine.
