THE reports of the canvass for the election of State officers in Maine are of a character to indicate that the Administration are determined to leave no stone unturned in their efforts to carry the State and elect Mr. Blaine. There is a strong opposition to him among his constituents, and it is more than probable that he will be defeated. All of the Administration speakers who figured in North Carolina have taken the stump there except Secretary Delano, whom the people are not particularly anxious to hear. Speaker Blaine's letter to Senator Sumner has been most extensively circulated in all parts of the State as a campaign document, while the reply of the latter is carefully excluded as far as possible by the Administration executive committee.

BEFORE making up an opinion on

the Gubernatorial question a few facts should be taken into consideration: General Hartranft was Auditor General when the Evans swindle was perpetrated. That swindle cost the people of Pennsylvania nearly three hundred thousand dollars. He was either a partner in the base transaction, or too stupid to know that a gang of plunderers were operating under his very nose. Take which horn of the dilemma he may the fact itself proves him unfit to fill the office for which he is now a candidate. Aside from the Evans transaction it has been proven reeatedly that he has used his present office for stock gambling purposes; that he is connected with the "State Treasury ring"; that he assists in using the funds derived from the interest on the unexpended balance to corrupt voters and carry primary conventions; that himself and Mackey tried to induce the Legislature to borrow five millions of dollars a short time ago, ostensibly to pay off a portion of our State indebtedness, but
