"Till death, and after it, your own "Jane." He read the letter twice-first with only a vague sense of its meaning, but the second time with a clearer understanding. Sobs came from his chest, tears came from his eyes, the hand that held the paper trembled, as he read. He knew that she was right. But it was hard to bear-bitterly hard to bear. How lonely the room looked-how mean, and miserable, and desolate! Faint as he was -for he had been standing in the cold streets for hours, playing with the waits, and nothing but a sup of water from a drinking-fountain had passed his lips-he had no consciousness of physical weakness. All his thoughts were of Jane' all his heart and soul and mind were charged with tenderness for his dear woman. He looked at the words "Dear Love," until he heard her voice speaking them. He had no thought of following her; her happiness depended upon his obeying her, and he would obey her. He had resolved upon that immediately. But oh, if he could hold her in his embrace once more! If he could hear her dear voice again! If, with her arms around him, he could tell her that he would be faithful to his promise! He dashed the tears from his eyes. "She is think-ing of me now," he sobbed; "She is awake and praying for me now! All the suffering of our parting was hers. She took it all upon herself, dear soul! She knew, and I did not; and her heart was bleeding while she shed the light of hope upon mine! What does she say here, dear soul, to lessen my pain? 'You have said so much to-night to comfort me! I treasure your words. They are balm to my icart.' It is like her—it is like her, to write those words. She knew, dear woman, she knew, dear heart, that they would comfort me! But I want strength! I want strength!" His eyes traveled over the letter again, and again he read the words, "Pray

Ben Sparrow came into the world exactly at midnight of the 21st of October, 1805, a few hours after the battle of Trafalgar was fought and won; and the doubtful compliment was at once passed on the new arrival of being the smallest baby that ever was seen. But then women go into extremes in these matters, and their statements that this is the most beautiful baby in the world, and this the smallest, and this the chuisbiest, and this the darlingest, must be taken with very large pinches of On that occasion the very smallest haby in the world acted in precisely the same manner as he would have done had he been the very larges' baby for the world.
