The contraction of the strength of the strengt

The quiet repose of a beautiful summer evening had stolen over the face of nature, and the setting sun looked smilingly into the open window of Rolin's private chamber, where he sat before a table loaded with a profusion of books and papers, displaying the taste and erudition of their possessor. His hand supported his head, and his arm rested upon an open volume of old romance, from which he had read until some inci-dent flung back his mind in gloomy contemplation of his own heart-rend-

ing relations. His still lovely wife was his daily, hourly companion; but she was one of pleasure only to the eye, for her mind was a blank to all fixed impressions. None but such as have witnessed the mental imbecility of one dearer to them than all else earth can offer beside, can imagine, even the most remotely, how like leaden weight of immovable sorrow the heart-crushing sense of Anne's afflicyou, while a single glimmer of exis- tion bore upon Rolin's feelings. tence remains."

From the hour old Mr. Wilmer and when I press the cold pillow of death, remember a daughter's hand prepared the chilly resting place. You have utted the fatal word that irrevocably binds you to a man that has wantonly betrayed a father's fond confidence, and no retribution can cancel my hatred for him, or turn away the wrath I have invokments to his own conceptions of his character. He took Rolin at once into his regard; settled upon him a large portion of his estate, and extended toward him all the kindness and attention of parental partiality. Whether it were a real feeling or a species of atonement for the injury he had wrought his daughter, Rolin never pretended to question, he received the manifestation as real, and then let his mind settle, where it must settle, immovably, upon the beloved afflicted partner of his broken heart. It would be in vain, as it would

be soul harrowing to a mind of refined perceptions, to trace in any of their painful minute the incidents of such a life as circumstance, that apparent stern ruler of our destiny, caused Rolin Aberly to endure. Few have strength of imagination sufficient to realize the icy coldness of feelings which must have stolen over him, in witnessing the withered blossoms on such a stem, -who will even dare to fancy circumstances so fraught with agony as those which gathered like clouds of almost cimmerian darkness around him! Who will be willing to read the destiny of her who had chained the devotion of his young heart, and yet know that the form pressed there held no spirit of bright intelligence, and amid all this, to be forced to wear a smiling
