

PUBLIC OPINION.

THE HEATHEN CRINER.

We have mentioned before the fact that the Beaver Falls Cutlery Company had... the places of American workmen... the importation of gangs of Coolies from China.

The American mechanic has expended... money in fitting himself for his... He has a family to support, and taxes to pay to support the government.

GOLD OR PAPER.

It is very evident from the April programme of Secretary Richardson that he... more bent upon contraction than his predecessor.

That unusual depression does exist in almost every department of industry... should be apparent to every one.

This throws out of employment, partially or wholly, large numbers of people, entailing upon the community much suffering and even crime.

It is this capacity of expansion which is inherent in our paper money system that constitutes its vast superiority over gold in the present condition of the country.

This is an all-sufficient argument against any straining after resumption of specie payments. Now we are independent, through our inconvertible currency.

The various cliques of brokers in the city of New York have taken unusual pains to obscure the question of the conversion of the six per cent. interest-bearing bonds into five per cents.

Those Congressmen who, after voting against salary steal, now sneak around by starlight to the back-door of the Treasury and lug off their share of the booty.
