[Louisville Courier-Journal editorial, April 7th.] Postponement of the Public Library Gift Concert.

It will be seen by the announcement in our ad vertising columns that the third gift concert of the Public Library of Kentucky, which was to have taken place to-day, has been postponed until July 8, This postponement has not been occasioned, as we are advised by Gov. Bramlette, by the small sales of tickets; on the contrary, the sales have been unusually large-much larger than at either of the preceding concerts-so large. indeed, that the time given by this ninety-day pose of every ticket and insure a full drawing without any reduction or scaling of the gifts, as has heretofore been the case. Gov. B. sees his way so clearly that he announces in the most posltive and unequivocal language that the drawing one. The owner of the ticket drawing the capital gift will get \$100,000 in groenbacks without any discount, and so of all the other gifts. "The money sufficient to pay all the gifts-\$500,000 in greenbacks-is already on doposit in the Farmere' and Drovers' Banki-set apart for the payment of the gifts and can be used for no other purpose, as will be seen by the cashier's certificate. With a knowledge of these facts-and we do not hesitate to guarantee their scrupulous fulfillment-there will be such a demand for the tickets now on hand that in all probability not a single one will be left lor sale weeks before the time of drawing. There never was a fairer or more honorably-conducted enterprise before the public, and it has, as it deserves, the entire confidence of our people. It is one of those schemes in which the purchasers of tickets leel the most positive assurance that the drawing will be fair, for it will be controlled by the most prominent and distinguished citizens of the city and State and those who draw gifts will be certain to get the money the moment their

tickets are presented.

Medical Blunders.

From the period when surgeons applied their salves to weapons instead of wounds to the present wide-awake age, the medical profession has often unwittingly taken side with Disease: in its conflicts with the human system. Even set, in spite of the teachings of centuries of experience, some physicians believe in depleting their patients, already seriously exhausted by sickness. with powerful evacuants, emetics, salivants, cautharidal plasters, or the lancet But, providentially, public intelligence is ahead of these medical fossils, who belong, of right, to the era of the Crusades! That powerful ally of nature in its warfare with the causes of eickness, Hostetter's Stomach Bitters, ha opened the eyes of the masses to the paramount importance of increasing the vital strength of the body when menaced by disease. They understand that when the atmospharic conditions are adverse to health, it is wise to reinforce the system with a wholesome tonic and stimulant, and thus enable it to combat and repel the depressing influence of an inclement temperature. If the constitutional and animal powers were always thus recruited in the presence of danger, the mortality from consumption, bronchitis, chronic rheumatism; &c., would be much less than it is now. The causes which produce croups, colds, quinsey, diptheria and catarrh seldom affect a strong and active vital system ; and of all vitalizing preparations. Hostetter's
