New Brighton.

Commenced its Third Year.

We are in receipt of the Pittsburgh Peoples Monthly (Illustrated), for June. This number keeps fully up, in the excellence of its illustrations and the variety of its reading matter, with those which have gone before. A new serial called "scarlet," is commenced and many original contributions from writers of repute third year. The publication of an illustrated 16-page paper out West, was rather a hazardrous enterprise, but we are giad to know that the venture is a successful one. The circulation is over double that of last year, and it bears on every page the impress of prosperity. With its beautiful illustrations for the home: its fine tinted paper: its "Household" and "Boys and Girls" departments, we don't know a paper in the country, which surpasses it in elegant appearance, or attractiveness. It now gives away to svery subscriber a very choice and rich chromo, or a 24x80 inch engraving. The fact that it has over one thousand minister on lits lists, should be a sufficient guarantee to families that, as a paper for the home, it is arrryed on the side of virtue, purity and morality. Price only \$1.50 per year. Agents wanted, on big commission, in every section. Address Peoples Monthly, Pittsburgh, Pa.

General Hartranft has issued a general order announcing the staff appointment of Brigadier General James W. Latta, Adjutant General. In assuming the duties, the Adjutant of the Department, in a circular dated June 2, congratulates the soldiery of Pennsylvania upon the financial aid secured from the State to defray their military expenses, and enable them in some measure to sustain themse.ves. He says:

Let it be our effort then to place the military of the Commonwealth upon the fcoting and standard that her great resources, her acknowledged power, her education and intelligence, her brilliant war record demand that they should be; so that as well, as her common schools, her colleges, her universities, her bench, her bar, her manufactures, her commerce and her mines, may her soldiers, too, be feld, corner of Broadway and Lock street, recognized and pointed to abroad and by her sister States, with like acknowl edged merit, and distinction, and high re-

> The Mutual Life Insufance Company of New York.

Cash assetts over forty millions of dollars. Is the largest and wealthiest company in the world. and the oldest Life Insurance Company in America. Policy costs less in this Company from year to year, that in any other Company.

WHAT IS THE VALUE OF LIFE INSURANCE? Let the reader make a practical and personal examination of the subject. Have you a family dependent on you for support? If so you have a duty to perform. If you are engaged in active business, consider what would probably happen if your plans were set aside and other persons were called in to close up your affairs. Your creditors clamorous, your labors suddenly ended; your property sacrificed to the highest bidder. There might be little left for your family. All this might be the result if death should overtake you next week, or next year, and you have no lease of life. You may be strong and healthy to-day, but are you sure that health, strength and life will be yours to-morrow? You ought to guard against this contingency. You insure your property, why not insure your life! Is it much more valuable Suppose you have an insurance in the Mutual Life Insurance Company of New York equal to the amount of your indebtedness, your wife or your friends, at your death, then have the means in hand to pay all that you owe. The warehouse, the store, the goods and merchandise are free from all incumbrance. No sacrifices need be made. Your family have property which, by your forethought, they are enabled to preserve, and will furnish the means of support.

The longer Insurance is postponed, the greater will be the premium. Nor can it be obtained upon any terms by those not in good health. Hence the immediate attention to this matter,

A Distressing Death .- On Satura ride, and chose for that purpose the direction towards Wilkins township. He had just passed the city limits on Penn avenue, when the pony took fright at something in the road, and started to run at a very rapid speed. The young rider lost control of the pony, and very soon was thrown violently to the ground, his foot, however, catching and remaining in the stirrup. In this dangerous position he was dragged some distance, and when the pony was stopped by a passer by, the unfortunate little one was quite dead, and his head was cruelly bettered and bruised .- Pitte. A Sad Accident at Stoneboro, Pa.-The beautiful little borough was very much shocked by a terrible accident that occurred there on Friday afternoon the 6th of June. Mr. D. Fry, a young man in the employ of the L.S. & M. S. Railroad, while trying to get on a switch engine while it was in motion, missed his footing, and his right foot and ankie promised. June begins this monthly's being caught under the wheel was crushed into a jelly and torn apart. He was taken into the Like House, and his wounds promptly attended to by Dr. J.H. Cristler, a young Surgeon and Physician residing in Stoneboro. He decided at once that the limb must be amputated, and set about it immediately, and in a short time the limb was off, the leg dressed, and the patient comfortable. The doctor deserves great credit not only for his decision and conlaces, but for the emigently skillful and scientific manner in which he performed his duty. He was assisted by Dra: Geibner and Dille. The patient is doing very well.

> Wood's Household Magazine.-The June number is just the book for the family circle! Just the dear old Household magazine we used to greet so gladly. The articles are not so heavy; there are more stories; not trashy, sensational compositions, but such as bear throughout astrong influence for all that is good, and pure, and true. A noticeable feature is that there is something beipful, encouraging, comforting upon almost every page. A bright face like this is needed in every household. The children's department is fully up to its standard, and printed in much better type. As to make-up of magazine, we notice a great improvement. A Temperance story is announced hereafter, for every number. H. V. Osborne (Tenoroon) has been recalled as editor, and assumes the entire management. Subscription price only one dollar a year. Address, Wood's Household Magazine, Newburg, New York.

California is becoming disgusted with her Chinese population—that is there is a very considerable portion of the population there bitterly hostile to John Chinaman, whom they regard as a pest and an impediment to the peace and progress of civilized society, and accordingly a fierce opposition is being waged to any further accessions of Chinamen to the population of that State. But how to prevent immigration is a question which the people of California will find it hard to solve. 'The laws regulating the question are all national.

Admission to West Point.-The result of the examination of candidates to the Military Academy has at last been tion founded upon personal appearance men and boys can be purchased at low and competitive tests, the per centage rejected is much larger than usual. The usual aumber "lound" has been from twenty-five to thirty per cent. .. This time it reaches nearly thirty-six per cent. forty-nine being rejected out of the one hundred and thirty-five who have been examined. This is due in a great measure to a lack of preparation and to baily conducted studies. Tais an inter includes, also, some who, feeling, rather think in regard to their qualifications, have had their examination postponed until September. Amoung the new cadets, are the two colored cadets. Cadet Smith of the Third Class will now have fellow students in whom he can confide. The Pennsylvania candidates admitted are Wm M. Black, H. P. Brown, W. B. Craig, W. W. Galbraith, W. B. Gorden, T. A. G. Simms, J. W. S. Souder .- Beening Telegraph.

H. P. Brown, of the above candidates resides in Rochester this 'county, and is an intelligent young man that promises to make an excellent acholar, and we are not surprised to hear of his success at the competitive examinations.

The Beautiful New Chromo, "Pet." This is the appropriate name of a new, superb, and wonderfully taking, 16x20 inch chromo, made in Boston by the best chromo-maker of the country, and now the exclusive property of the Pittsburgh Peoples Monthly, the popular, illustrated paper for the home. Large and elegant as it is, it is given away "in the sheet" to every subscriber at only \$1.50 a year Every body has by this time heard of this monthly. It has just entered its third year, has a very rapidly-growing circulation, and over one thousand ministers on its list; universally popular, and with its tinted paper and elegant typog raphy, it is as beautiful a paper as is published in this, or any other country. It makes home matters a specialty; its illustrations are generally in that line, and once taken, it very large commission and are now netting on it from ten to twenty dollars per day, depending on the agent and locality. The chizens of Beaver had the pleasure of listening to Bishop Simpson of the M. E. Church, on Wednesday evening of last week. Being here on other business connected with the Church, he was persuaded to address the people and gave them a plain practical address that was very interesting. Dr. Holmes next enfertained the audience with a few remarks. We are told that the Bishop will be present at Dr. Taylor's Commence ment, which occurs shortly.

The Commissioners deserve credit for the handsome improvement they have made upon the Court House. The Court room is tastefully freecoed, and the appearance of the room generally improved. The ceelings of the office rooms have been also frescoed. Taney & Bro., of Beaver Falls did the job.

The Just number of the American Exchange and Review is on our table, and by examination we find that it is a solid number of more than usual merit. The contents are large and we desire to call attention to "Our Solar System," "Perversions of Terms of Speech," The Treat ment of the Insane." The fertile Fields of Mount Deseret." The departments for which this Review is characteristic are full of important and practical information. Published by the Review Publishing Company, Philadelphia.

The Farmer's Granges.-Up to May 29 there were 8,377 farmers' granges in the United States, with an aggregate membership of over 2,600,000. These granges are divided as follows: 'Arkupsas, 15; Chlifornia, 8; Georgia, 16; Illinois, 434; Indiana, 149; Iowa, 1,507; Kansas, 128; Michigan, 24; Minnesots, 218; Minis sippi, 112; Missouri, 245: Nebraska, 190; Ohio, 47; South Carolina, 118; Tennessee, 18; Vermont, 22; Wisconsin, 140. These figures are from an official source. The granges seem to have taken better in Iowa than any other States, but in Illinois farmers' clubs have been largely formed, intended to accomplish the same results, but different from the granges in the fact they are not secret societies.
