State Teachers' Association. -The State Teachers' Association met in Pittsburgh on Tuesday the 12th inst., and continued in session three days. There were a large number of teachers of the State in attendance, and a few from abroad. The prepared programme was adhered to, and a variety of ideas on education brought out by the different speakers, and in the general discussion that followed every essay or paper read.

On the "Relation of High Schools and

Academies to Colleges," the Hon. J. P. Wickersham said that the interest in higher education was declining. It was a remarkable fact that the attendance of pupils in our colleges was not greater now than it was twenty or perhaps forty years ago. The attendance did not at all keep pace with the increased population and wealth of the country. Another fact was the extraordinary expansion of the common school system. A single fact. would illustrate this point, namely: that, in the last six years, since the speaker had charge of the schools of the State, the aggregate annual amount spent for school purposes had increased from \$3,-500,000 to \$9,000,000. This immense sum was spent by the children of the State in the education of her children. It was to the credit of Pennsylvania, too, that no State in the Union had provided so literally for the elementary instruction of the masses. Then the two facts which he wished to impress apon the audience were, that the colleges of the State were languishing, while the common schools were progressing rapidly. The question then rose, "How shall our colleges be supplied with students?" The common schools were not organized so as to qualify pupils for entering college. There was a missing link in the educational chain, and how could it be supplied? In the first place, he would have high schools established everywhere throughout the State, and in the second place he would have the academics and boarding schools graded-made high, classical and mathematical schools. He would be glad to see one or more such schools in every county. He was also in favor of a further development of the common schools. Great and distinguished educators had, at their meeting at El mira, advocated the limiting of a common school education to reading, writing, arithmetic and grammar. He, for one. repudiated all such doctrines as that, and he felt that he would be supported, not only by the law makers at Harrisburg, tut by the people at large. [Applause.] He hoped to see the time when the State would extend its aid to academical schools, without undertaking to controthem. What was needed, was to fit together the common school and the academy, and the academy and the college. Our high schools are not intended to prepare boys and girls for college, but rather for business. They ought to aim higher. But the spirit manifested by the majority of parents was to get their boys out of school as soon as pos-ible. This spirit facturer. ought to be checked, and could be check ed by a proper public sentiment. The colleges would have to depend mainly on the high schools, for years to come, and he therefore wanted to see intimate relations established between them. Boys should be pointed to the college rather than to the counting-house and the work shop. All college Presidents should emulate the example of their worthy chair man (Dr. Hays) and come down from their dignified positions occasionally to affiliate and fraternize with the common school workers. [Applause.] Too many

We have room only to publish the reso-Intions, but these embody the results of the several discussions and indicate the sense of the Association on the subjects brought before it. The resolutions which were unanimously adopted are as follows:

of them stood upon their dignity and held

Resolved, That a vote of thanks be teudered to the teachers of Pittsburgh for the comfortable and elegant hall provided for our meetings; and also for the pleasant and very enjoyable boat excursion down the Ohio.

Resolved, That we most heartily commend the co-operation existing between our public school teachers and professors of the classic linstitutions of the State; and that we will lend our aid and assistance to the establishment of such schools, as will connect the public schools with the college.

Resolved, That a more extensive course of study and a more thorough school discipline, are most desirable for all who are training for teachers; and that a higher mental and moral culture, on the part of our school instructors, would be the certain means of elevating all our institutions of learning, and rendering them more acceptable to the public.

Resolved, That it is most desirable that our teachers be required to pass examination in, and be prepared to teach music and drawing, and that a committee of three be appointed to make a report on these subjects at the next stated meeting.

Resolved, That the attention of our school authorities be called to the condition of bootblacks and newsboys, as well as the thousands of other children not relure picked up the body of a man floating ceiving the benefit of our public schools.

Resoslved, That a vote of thanks be tendered to those members of the association who prepared and read the able papers presented for discussion, and to those who have furnished the excellent and entertaining music and readings which we have enjoyed during this ses-

bear testimony of their confidence in our if anybody can.

sion.

State Superi stendent, Hon. J. P. Wickersham, and their high appreciation of his most excellent services.

Resolved. That we hereby thank the newspaper press of Pittsburgh for their faithful and full reports of the meetings of the Association.

As the purchase of a Sewing Machine is o may be an act for a life-time, care should be taken in selecting one that time and use have proven to be the best. Time tries all things. "Use only furnishes the final test." Opinions of the skillful may be of value, but time is needed to confirm them. While the Singer Sewing Machine Company has given the public the finest fruits of inventive genius, they have guarded it from a multitude of traps. Attachments have been added for various purposes, but it has kept free from all useless complications. Simplicity of parts, and adaptation to the widest range of work has been the constant aim.

Instead of boasting of a variety of useless stitches and movements, it claims to make but One Kind of Stitch, and that with the Fewest Mevendata Possible. Hence the Machine may run constantly for twenty years, or a life-time, and Work just as well as when new.

"Copper Bottom," owned by Ewing Brothers of this place, performed a feat at the Steubenville races that never was done before in this or any other country. In the second heat for the \$300 purse, "Copper Bottom's" driver allowed his sulky to collide with another and was thus thrown out, but the horse went on with lightning speed without a break. passing everything in the handsomest manner, and came in first amidst terrific applause. The judges thought of giving the heat to the other horse because "Copper Bottom" came in without a driver, but the spectators raised such a howl of indignation that they feared the stand would be pulled down over their heads. The heat was finally decided to be a draw. "Copper Bottom" won the next two heats easily. The owners of this horse claim that he is the fastest horse in the world. He is hard to beat, and his Steubenville record will add another laurel to his

Miss Annie Elliott, of Steubenville, presented "Copper Bottom" with a magnificent boquet, which, of course, was better appreciated by Mr. Ewing than by the horse, and it graces the parlor mantel at his residence in this place.

John Kennedy & Co., of Beaver Falls, are doing a large business in the boot and shoe trade. Their wholesale trade, already large, is certainly increasing, and their facilities for manufacturing boots and shoes are such that they defy competition. They keep constantly on hand a splendid stock of gentlemen and ladies wear of all styles, prices and sizes, also boys and girls hoots and shoes. Boots and shoes made to order from the very best material, and warranted to give satisfaction. Call and examine their stock and leave your orders.

Boots and Shoes at Hertzog & Beam's. New Brighton. These gentlemen keep on hands large assortment of goods in their trade and sell them at the most reasonable rates. They take delight in showing their boots and shoes, and are not alraid of comparing them as to quality, style and prices with those of any other store or manu-

The Beaver Falls Gas Company are. making preparations to build gas works auflicient to furnish gas for Beaver Falls, New Brighton and Fallston. The company have secured an admirable location for the works above and adjoining the railroad bridge between New Brighton the river. The building to be erected, we are informed, will be substantially of brick, and covered with a good iron roof. The size of the building is to be 30x72 feet, and heighth of story, 18 feet. The gasometer will be 15x50, and all machinery connected with the works will be of the most modern improvement and complete and substantial character. The works will be sufficient to not only light the three boroughs, but large and capacious enough to meet the demands of three times the population now in them. Main pipes will be laid to the extent of some five miles, about two and a half miles each in the two larger boroughs. This will give gas facilities to nearly all the main residences of the places, and to all manufactories and places of business. Of course the towns will be lighted up. The works are expected to be in operation by December.

The Curiosity of a Fly.-Talk about the curiosity of a woman! We will back a fly against any woman. Just watch him as he gayly traverses a bald man's cranium, halts on the eyelid, and, taking a cursory glance around him, Waltzes over to the end of the nose, peeps up one nostril, and having sati-fied his curiosity there, curvettes over the upper lip, and takes a glance up the other. With a satisfactory smile at having seen all there is to be seen there, he makes a bee line for the chin, stopping a moment to explore the cavity formed by the closed lips. Arriving at the cuin he takes a no tion to creep down under the shirt collar. but suddenly hesitating, he turns around as if he had forgotten something, and proceeds to an exploration of the ears. This concluded, he carries out his original intention, and disappears between the neck and shirt collar, emerging, after the lapse of some minutes, with an sir seeming to say he has performed his duty. What matters the frantic attempts to catch him. the enraged gestures, and the profane language? They disturb his equanimity not a moment; driven from one spot he alights on another; he finds he has got a duty to perform, and he does it.-Lawrence American.

For a neat and substantial Boot. Shoe or Gait er go the cheap store of John Kennedy & Co., Beaver Falls. They have the largest, best and Resolved, That the association wish to cheapest stock in Beaver county, and can suit you Pa, is now buying WOOL, paying the highest burgh, Pa., and you can get just such a machine

That New Suit .- The editor of the Argus is said to have a new suit of clothes. When he appears on the streets rehabilitated he intends it to be understood as significant of the annual political change of his paper that usually happens about this time. We have not yet seen the suit and do not know whether or not he has imitated the Democrats and cast aside his Liberal clothes that are out of fashion to don the "ole closs," patched, cleansed, colored, remoddeled and cried off at Columbus the other day. Perhaps the garments are bran new, and made of Republican cloth and cut by a Republican tailor. If so we congratulate our neighbor on his excellent judgement and refined taste. The old and shabby stuff that the Democrate are peddling is not worth anything, and whoever invests in it will certainly make a bad bargain. We hope the editor is not assumed of his new suit or afraid of the effect it may have on the community; we advise him to put it on at once; get used to it. The awkwardness of a first appearance when one is the "observed of all observers," will toxicated, but not drunk. His compan soon be worn off and the agony be over. You had better finish the job up at one. time, too, and not do is by parts, drawing on the pants first, then after a day or so buttoning up the vest, and finally putting on the coat. This would make your awkwardness long drawn out and afford too much merriment to the community. We hall know all about it in a few days, and in the mean time we extend our congratulations or sympathies-which?

Serenading.—An old gentleman residing near New Brighton who was married a few years ago, imagining that some of his neighbors were enamored of his wife, became very lealous, and they did not live as happily together as they might have done. The old lady, some months ago, resolved to leave him for a while and she did so. A few months passed away, and the old gentleman becoming very linely, prevailed on his wife to come back to him again. On the evening following, a number of boys, with respect for their reunion, gave them a happy serenading, making delightful music with old saws, tin pans, &c. They listened to the charming music patiently until, twelve or one o'clock, when the boys went home. A few days later warrants were issued for the boys and ten or twelve of them were arrested and brought before Souire Moreland, of New Brigh ton. The affair was settled, however, by the boys paying over the handsome some of ten dollars. The boys think now that the serenade was all on their side.

The New Castle Journal says: On Friday evening of last week, a little five year old daughter of Mrs. Cambridge, residing on Chestnut street, First ward, while playing near a well, stepped on one of the boards of the cover, which suddenly gave way, letting her full into the well, which was about twenty-one feet deep and contained six feet of water. Her mother, who had witnessed her fall, gaised an alarm which soon brought a number of persons to the well, one of whom, a man named Meaner, was lowered by the windless, and with considerable difficulty recovered the body, which had lain under water nearly five minutes, and was appaand Beaver Falls, on the right bank of rently lifeless. Vigorous measures for reauscitation were, however, immediately employed, and respiration at length restored. She is now seemingly as well as ever. Hers was indeed a miraculous es-

cape from a most untimely death. The Buckeye State says: While on his way to Steubenville to attend the 1st of August celebration, our townsman Wm. D. Sherrow, accompanied by his daughter, stopped at the Nillson House, (late Gaston House) Wellsville, for dinner. When the bell rang for dinner, Mr. Sherrow laid aside his hat and was about to enter the dining room, when the gentlemanly (?) landlord informed him in a round-a-bout | There seems to be a deeply rooted prejuted to eat at the first table. Mr. Sherrow with becoming dignity thanked him for and the idea of learning a trade is repugallowing his daughter to remain in the | nant to the teachings of fashi cable so house, politely bade him good day, and ciety. By this entire absence of any real repaired to the Missouri House, kept by work to do the only thing which seems baugh, where dinner was served up to them in good style. Mr. Sherrow excuses the Nillson House man upon the ground that "the poor fool didn't know better."

Boots and shoes for ladies, gentlemen and children, at Hertzog & Beams, New Brighton.

A Cuban gentleman, who has been roaming over the world for the past eight years, and had resided much of his time in America, was appealed to, when he delivered himself in substance about as

follows: in the world, with good ale, go to London for them; if you desire the best pastry and fancy dishes, go to Paris for them; if you prefer the substantials, well cooked and served, and the best made coffee and excellent beer, come to Vienna for them but if you desire all these essentials to good living combined, together with soft crabs. oysters, terrapins, canvass-back ducks, and an endless supply of the most luscious fruit, you must go to America for

and illegal peccadilloes of a varied character, has been banished from France. and now has the opportunity to repent in the penal colonies of New Calidoria.

Wanted .- John H. Rwing, of Shippingport prices. He wants all he can get.

The Beaver Falls Tragedy.—The verdict of the coroner's jury in regard to the mysterious death at Beaver Falls, mentioned in our last, was "That the deceased, supposed to be Benj. F. Bearss, came to his death at Beaver Falls on the twelfth day of August, 1873, by violence received at the hands of some party or parties at present unknown to the jury.

It was ascertained that the man had pawned a watch and chain at the broker shop of M. Streng. No. 7 Sixth street Pittsburgh, for which he received twenty four dollars. Mr. Streng was sent for and testified before the Coroner's jury that this was the same man who had been in his office on Monday last, and that he had been there before and pawned the same watch and chain. He knew nothing further about the man, where he lived or

what his business was. Mr. Crane testified that Mr. Bearss, in company with two other parties, came into the Cutlery works and asked permission to "look around," which was granted them. Mr. B. was somewhat inions had been drinking, but were not so much under its influence as he was While he was looking about the building they went into the sard and held a conversation in low tones, about very important matters, judging from their manner.

A little boy testified that he saw these three men playing cards under a willow tree on the bank of the mill race, while another boy says they were playing for money and Bearss was winning it all Dr. McPherson testified that the wounds had been inflicted with a dull cutting instrument, a knife probably, which had penetrated the wind pipe, causing death after being thrown into the water.

We hope that the mystery now surrounding the death may be cleared up by further discoveries of facts in relation to it, and if it was a murder that the guilty party or parties may be brought to jus-

Fancy Shoes of all kinds at Hertzog and

"Throw Physic to The Dogs."

The Graphic recently gave an illustration of the new chromo issued by the Murray Hill Publishing Company, 129 East Twenty-eighth Street, from Bispham's painting-"Throw Physic to the Dogs." The subject is a little girl physicing varions specimens of the canine tace. The scene is a laughable one, and the different attitudes of the dogs are exceedingly pleasing.

It was designed to illustrate Dr. Foote's aversion to drugs, and accompanies each copy of his well-known work. "Plain Home Talk and Medical Common Sense." The Doctor's practice is thoroughly "New School," and in this way he stands prominently out from the profession a successful practitioner.

The book is a volume of 912 pages and 200 illus trations, filled with facts and reason relating to mankind, and their social and physical status. The Graphic says of it: It is an encyclopedia of useful knowledge." A noted clergyman of this city testifies to its merits, remarking: "It is library in itself." The Franklin Repository, of Chambersburg, Pa., speaks of the picture as a "beautiful chromo, very pleasant and so enjoyable as to be almost good company."—New York Ex-

What to do with the Girls?-"Marry them," says a fellow at our elbow, and his answer suggests just the consid eration which it behooves parents to think over. It is customary for boys at an early age of life to settle upon some definite occupation which serves as a sor of guide to their future life, and an an chor of present safety. As soon as their education be completed, at whatever age they engage in some pursuit, by which they are lifted from idleness and frivolty into a course in the pursuit of which they attain honor and usefulness. But with girls the case is quite the reverse, for af ter completing a course of education which is in itself too often superficial, they enter into a period of inactivity. way that colored people were not permit- | dice against her engaging in anything which should seem to be a life's work our good natured friend Charley Aughen- left to a large class of women is to get married, an event which is in many cases unfortunately precipitated by the force of these circumstances, which hedge about the life of a single woman in genteel society. The prejudice against a woman in however favorable circumstances, earning her bread by her own labor is an ill-founded and silly one, and the sooner wise men and women learn this the better it will be for the physical and moral life of this and all succeeding generations.

We clip the following from the Washington Review and Examiner of August 13th: We learn that the contract for the new Presbyterian church at Burgettstown (Rev. J. T. Fredericks, pastor,) has been awarded to Mr. Smith. proprietor of the planing mill between Burgettstown and Cardville. It is the intention to complete the building during the present year. It will be a fine structure. The new U. P. church in the same place (for which Capt. Andrew Bruce is one of the contractors) is also in active course of construction. It will cost in the neighborhood of \$30,000.

-Louis A. Grover, of Brownsville, second engineer of the steamboat Wm. Stone, had both ankles fractured on Thursday last, while the boat was lying at Pittsburg, by being caught between the piston rod and the cylinder timbers while the wheel was being moved.

-A daughter of William Ostrander, aged about nine years, was drowned in the river on Saturday afternoon of week before last at Staib's coal works, a short distance above Monongahela City.

-Rev. W. W. McKinley, pastor of Mingo Presbyterian church, near Finleyville, Washington county, has returned from Narraganset, R. I., greatly invig-

-The commencement exercises of Waynesburg College will take place on Wednesday and Thursday, Sept. 3d and 4th. The graduating class is composed of twenty members, eight females and twelve males.

-Daniel Hostetter, of German township, Fayette county, died suddenly on Thursday of week before last, in the 77th year of his age. He was stricken down in the harvest field. He was the father of the well-known "Hostetter Blind Family of musicians.

-While the workmen were engaged in digging out the foundation for the new building about to be erected by Craig Ritchie, they came upon an old vault in which Aaron Henderson, one of the workmen, found a fine gold watch case. Some of our citizens remember that about ten years ago a gentleman attending College here, lost this same case and at the time offered twenty dollars for its recovery. When found it was as bright and beautiful as though it had just come from the hands of the burnisher. - Canonsburgh

-A considerable amount of real estate in Washington county is now changing hands. In some localities farmers are selling coal privileges for more than their farms cost them a few years since. As rapidly as railroads and other means of transportation are developed the coal buried under our thousands hills will appreciate in value, and what is now comparatively worthless will be counted at millions.

-At this time very little hay is selling in Washington county. A few weeks ago it was thought that there would not only be none to sell but that farmers generally would be short of the article themselves. The recent growing weather has greatly increased the crop, and when the time comes for it our farmers will have some to sell. A prime article is now selling in Pittsburgh from \$20 to \$27 per ton.

Time tries all things.—Use only furnishes the final test. Those who have used Andy McDonald's harnesses and saddles and other work, know, that they are durable. His reputation as a harness and saddle maker is established and all the public need to know is where his place of business is, and that he is determined to sell at the lowest prices the very best of work. He has secured the services of Mr. King, one of the best workmen in Western Pennsylvania. Call and see if what he says is not true.

Messrs. Laughlin Bros. propose to erect a \$60,000 pottery in Liverpool, Ohio, for manufacturing white ware. The plans for the new buildings are drawn and the works will be commenced as soon as the citizens of Liverpool have raised a bonus of \$5,000 and the necessary ground. If good white ware can be made at Liverp of the place will take a new

On Tuesday evening, of last week. Bruce Simpsio, of New Castle, and Smith Agnew, of Pittsburgh, met with au accident when returning from a pic-nic in the vicinity of Neshannock Falls. The horses became frightened and ran off. upsetting the carriage and dumping the gentlemen and their ladies on the ground, spraining the ankle of one and knocking out some teeth from the jaw of the other. A New Paper.—Messrs. Williams & The ladies escaped with only scratches.
