Found in a Dissecting Room.-Some time during the latter part of June or the first of July last, Thomas Munce. an old citizen of Washington county, left his home, situated about three miles from the town of Washington, since which time, until Wednesday last, he had not been heard from, further than he had been seen in this city. He had with him a fine gold watch and about forty dollars in money. It is probable that he went directly to Philadelphia, as his body was found floating in the Schuylkill, at Sansom street wharf, by the harbor police, on the third of July. What he went there for, or how he came to get into the river, will probably never be known.

He was considered by many as being an eccentric man, but that does not fully express his mental condition. In his younger days he was a tall, straight and powerfully built man, managed business well. and finally amassed a fortune of about \$75,000. At the time of his death he was the owner of five hundred acres of as fine farming land, perhaps, as is to be found in Western Pennsylvania. For some cause or other he never married, but remained in charge of the homestead. The tact of his being wealthy was generally known, and during the last year had been assaulted by desperadoes no less than six times, the last time almost fatally. A desperate blow on the head, about two vears since, so effected his reason that he had not been considered "right" since. The villain who dealt it, no doubt, meant that it should be a fatal one.

He spent much of his time among his friends and relatives, and for several days after his disappearance no one seemed , concerned as each one supposed he was with the other. When it was discovered that he had gone dilligent search was made for him with the above result. On receiving word from Philadelphia that a man filling the description of his brother I an Munce proceeded at once to Philade phis where he identified the body as being that of him for whom he had been searching.

there, although his interment had been reported to the authorities. They then visited the dissecting departments of the menical college, and there found the body "pickled" and stored away to be hacked to by the young "saw bones" at the lectures pext winter.

Search was also made for his gold wetch, and by keeping a close lookout at the pawn brokers it was soon discovered, having been placed there by a man named Wm. McEwen, who was at the time of his death the driver of the Coroner's wagon. He had evidently taken it out of his pocket while on the way from the fiver to the Morgue. This man McEwen seems to have by some adroit means eluded the vigilance of the Superintendent and made an extra five dollars by handing the body over to the Medical Col-

The Liverpool Gazette of August 23d says: On Sabbath last, while Mr. A. G. Foulks was driving to Camp Meeting his brises became unma vageable from some cause, and started off at a terrific gait. The road was full of vehicles and when near Laughlin Ross' residence, on the road leading from Calcutta to Wellsville they ran into Master Wm. Laughlin's bazgy, in which were seated Master Will and Mr. Benonia Dawson. A terrific col lision took place and Mr. Foulks and Mr. Dawson were both badly injured. Fortunately the horses were checked before ther damage was done. Mr. Foulks is of the firm of Foulks & Thomas, Real Estate Agents, of this place.

P. S.—Since writing the above we learn that Mr. Dawson died on Wednesday evening.

During the past few days I have frequently been asked the question, "Has the large family to mourn his loss. Agricultural Society done away with family tickets." I would say to those in. terested, that there has been no change in the family ticket system, but tickets may still be had at the old price, (one dollar) by calling upon R. H. Cooper, Treasurer of B. M. EWING, Sec'y.

was killed by lightuing suddenly on Tues day the 12th inst. He was leaning against the stable door casing of his barn during a violent storm, when a brilliant flash came, striking the building and killing Mr. Bond instantly. The lightning struck the eastern end comb of the stable some forty feet from where he was standing, passing along the comb of the roof till opposite the door, then down a board to the door, striking him on the back of the head, running around both ears to both cheeks, over both shoulders then concentrating ran down his back bone to down both legs to the ground. The barn less than a mile off from Mr. Bond's.

A Model Farmer.-In passing A Sheep Case.-Quite an exciting few days since, we called upon our genial friend, Jordan S. Neil. While enjoying his hospitalities, we learned from him that during the present season he has harvested 175 tons of hay, harvested and threshed about 2,400 bushels of grain; cultivated 45 acres of corn and 11 acres of potatoes; that he has been absent from the farm on an average five working days out of the week, and had the supervision of the entire work. This we regard as a pretty good showing for a Beaver county farmer.

Mr. Neil's farm is on the north side of the Ohio River, contains 500 acres, all the fields are enclosed with neat and substantial post and rail fences, and is in a high state of cultivation. Mr. Neil's residence is a handsome one with all modern conveniences consistent with a farm house. He has upon the farm six tenant houses, five frame barns, six wells (one of which is 133 feet deep.) three cisterns of a capacity of 1,100 barrels, and he has conveyed spring water, by pipe pear a mile through his farm, consequently every field is sup plied with good pure water. Notwith. standing the fact Mr. Neil has been upon the farm but about ten years, he has planted and now has 6,000 bearing apple trees, 2,000 peach trees and 8,000 pear trees, with a large number of trees bearing other varieties of fruit. Our attention was not directed to his stock, but we noticed ten Alderney cattle, eight horses and forty full Chester White hogs, &c.

Taking into consideration the size of the farm, buildings, improvements and state of cultivation, we think Mr. Neil's will rank first in Beaver county, but if any of our farmers can beat this, let us hear from them.

Prof. Johannessen, who has been secured as Principal of the Musical In- Ferry on Thursday of last week. John first class musician and teacher. > Mountain Gingerbread.-Take one half pound butter, quarter pound sugar, six eggs, yolks and whites beaten separately, one tea-spoonful each of ground cinamon, allspice, and cloves, one table-spoonful ginger, three-quarters pint of molasses, four table-spooniul sweet milk, and one pound of flour, having in it one measure of Banner Baking Powder.

Each can of the Banner Baking Powder contains a small measure, to be used even full, according to printed directions. If you cannot obtain this really valuable article from your grocer, send twenty-five cents by mail, addressed to Banner Baking Powder, P.O. Lock Box. 317, Pittsburgh. Pa., and you will receive, postage paid, a quarter pound package, together with a list of fifty valua-

Hon. C. B. Darrall, member of Congress from Louisiana, was in town last week, and, we are informed, purchased from Messrs. Dawson & Eakin the Hice property on Third street, for the use of his mother, now residing in Somerset county, but who proposes to move and take possession of their new home about the 1st of November.

Sudden Death .- John McCarter, a prominent citizen and farmer in Chippewa township, died very suddenly on Friday last. He was attacked with something like cholera morbus and died a few hours afterwards. We saw him in Beaver the week before, in appearance strong and healthy, but how little one knows what a day may bring forth. He was about fifty-five years of age and leaves a

The September number of Wood's Household Magazine is on our table. We always have a good word to say for this publication—it is such a whole-souled, book-so wide awake, so lively and entertaining, yet always so chaste and refined. It is a regular little go-ahead, too, as comparison between its numbers will prove. We learn that the firm of S. S. Wood & Co., dissolved in March last, the "Co." (S. E. Shutes, Mayor of New-Madison Bond, of Greene county, burgh,) retaining possession of the magazine, and remarkable work. ecalling H. V. Osborne (Tenoroon) as editor. So, though the publication really changed hands, it has not suffered from the management of a new publisher or new editor, but under the redoubled efforts of its energetic proprietor, has gained new force and new attractiveness. Price only one dol' lar a year. Address

Wood's Household Magazine. Newburgh, N. Y.

Teachers Appointed.—The following corps of teachers have been selected by Beaver Falls School Board. Term to commence September 1. 1873:

Room 10-Miss R. E. Forbes, Principal: room 9-Miss Belle Lynch; room 8 his hips where it divided and passed —Miss S. H. Russell; room 7—Miss Lizzle Purviance: room 6-Miss Lizzie Reed; terial progress of the county must turn in was full of new hay and all was consumed. room 5—Miss Mar; Eakin; room 4—Miss Loss \$500. On the same night a hay Alice Forbes; room 3-Miss Mary Parkstack belonging to Mr. A. J. Goodwin inson; room 2-Miss Addessa King; was also struck and consumed. It was room 1—Miss S. S. Purviance; Janitor— John Cook.

through Ohio township, Beaver county, a case of this kind was tried at the Court House, in Beaver, on Wednesday of last week, before Justice Imbrie, of this place. The jury was composed of lawyers, with one exception, and the case was conducted for the prosecution by Messrs. Wilson & Wickham, and for the defense by Mesers, Daugherty, of Beaver, and Jorsubstantially as follows: That some time in April last a young Mr. Thompson let well enough alone, he commenced an action against Mr. Knight for the false makes a new information against Thompfound young Thompson guilty, and he was sentenced to pay a fine of \$20 and be shut up in jail for six months.

We judge young Thompson will not hereafter take kindly to pets, especially pet sheep.

John Kennedy & Co., of Beaver Falls, are doing a large business in the boot and shoe trade. Their wholesale trade, already large, is certainly increasing, and their facilities for in selecting one that time and use have proven to manufacturing boots and shoes are such that they be the best. Time tries all things. "Use only defy competition. They keep constantly on hand furnishes the final test." Opinions of the skilla splendid stock of gentlemen and ladies wear of ful may be of value, but time is needed to conall styles, prices and sizes, also boys and girls firm them. While the Singer Sewing Machine boots and shoes. Boots and shoes made to order from the very best material, and warranted to give satisfaction. Call and examine their stock and multitude of traps. > A Valuable Work on the West. "The Undeveloped West; or, Ave Years in the Territories." Being a Complete History of that vast region between the Mississippi and the Aucific; its Resources, Climate, Inhabitants, Natural Curiosities, etc., with Life and Adventure on! Prairies, Mountains, and the Pacific Coast. By J. H. Beadle, Western Correspondent of the Cincinnati Commercial, and Author of 'Life in Utah,'

The most attractive, as well as the most remark able portion of our country, is that which lies West of the Mississippi. It is attractive to the wounded, and left tracks of blood upon the emigrant, because it is to that region that he looks for a home: to the student of nature, because of the stupendous marvels of creation in which it abounds; to the capitalist, because of its wonderful capacity for producing wealth. It | prices. He wants all he can get. is a land of grandeur, beauty and romance.

Mr. Beadle spent five years in the Great West, for the especial purpose of exploring the country. Setting out on foot, he traversed the States o Iowa, Minnesota, Nebraska, Kansas and Texas, as well as Dako: ah and the Indian Territory; visiting in personail that was worth seeing; examining the lands, living and conversing with the people, and gaining for himself a fund of information tion, based upon his own observations and dis coveries, more extensive than one man in a million can obtain.

He explored the various routes of the Great Pacific Railways, and spent months with the In dians, both friendly and hostile, studying their character and habits. He allowed no personal peril to deter him from the execution of his plan. Thousands of lonely miles were traversed by him. and he endured fatigue, hunger and many dangers that he might make known the true character of the land and people in which and among whom his wanderings were made.

The book is full of information and facts of the greatest importance, such as could only be obtained by going after them, as this indefatigable

These new States and territories contain incomparably the grandest scenery in the world, and some of the richest resources of the American Continent. Probably no other man has ever journeyed so extensively among them as Mr. Beadle-certainly no one so competent to describe what he has seen.

All sorts of people figure in this work, for it is a brilliant picture of life and manners in the Great West. The hardy frontier farmer; the wary hunter and trapper; the reckless miner; the cruel and degraded savage; the hard working "Heathen Chinee;" the "much married" Mormon; the strange remnants of the once powerful Aztec race-all these figure with the naturalness of life in this

it is emphatically the greatest book of the day, and cannot fail of attaining an immense circulation. We heartily recommend it to our readers. It is comprised in one large octavo volume of

823 pages, and film strated with 940 fine engravings of the scenery, lands, mines, people and curiosities of the Great West, and a new map of the region described.

The book is sold by subscription only, and the publishers want agents in every county.

The managers of our Annual Fair have made and are making extensive prepara tions to have a grand fair this Fall-the heat that has ever been in this countybut in order to succeed the farmers and stock growers and all interested in the maand help. Bring in your samples of grain, roots, fruit and choice stock of all kinds. and let it be seen that Beaver county is not behind her neighbors in public spirit and material development.

The M. E. Camp Meeting near Georgetown, which began on last Wednesday and continued till Thursday of this week. was a success. The weather for the most part was favorable and the number of people gathered together large, especially on Sunday when it reached as high as 4000. Reve. Kendig, Huddleson, Beker, Gledhill, Miller and the presiding Elder, don, of New Lisbon, Ohio. The facts as | Miner, were present at some of the meetelicited in examination of witnesses was ings, and a number of clergymen of other denominations also. The meetings were orderly and earnest. The singing was exof Columbiana county, sold two sheep to cellent. In regard to the results of the Mr. Marks, of Darlington, one of which meeting we cannot speak with confidence, a pet he had stolen from Wm. H. Knight, but it is probable that some souls have of Darlington township. The case had been quickened and the religious interests been settled once by the father of the of the community increased. The acyoung man, who agreed to pay for the commodations for entertainment were sheep and the costs, but not content to ample except on Sunday when the crowd was very large. There was one feature about the camp that is worthy of especial imprisonment of his son, and before this praise, viz: the excellent arrangement for lust case was settled, Mr. Knight again light. Mr. John Staley laid gas pipes from a contiguous oil well over the ground son. The jury after hearing the evidence and lighted the camp by means of the gas from the well. The effect was brilliant and animating. This camp meeting was under the general superintendence of Rev-Joseph Gledhill, of Georgetown, who deserves much praise for the skill with which be managed the meetings and ad-

CAMP GROUND, NEAR GEORGE.

TOWN, Aug. 24, 1873. EDITOR RADICAL: As I am seated at the base of a majestic oak, overlooking the assembled worshipers. I conclude to pencil you the result of my observation and experience at camp meeting. I arrived here in company with a friend yesterday afternoon, found the encampment located about two miles from Georgetown, near Mill creek, on a steep hill side, scarcely accessible to vehicles. After viewing the surroundings we repaired to a boarding tent for the purpose of refreshing the physical man. The evening service was conducted by Rev. Baker. The audience was not large but patient, orderly and well behaved. After service my friend and I engaged sleeping accommodations at our boarding tent, and concluded we would enjoy our cigars a while before retiring. About 12 o'clock we applied at the office of the chief clerk for some one to show us to our sleeping spartments that were previously engaged for the night. After waiting half an hour or ket. more he proceeded with us to a pen in which was a small quanity of straw, with its sleeping capacity already more than full. Our bed clothing consisted of something representing a comfort, rather cool | ly part of the summer all prisoners have comfort of about the weight of a pocket | been closely confined to their cells, which handkerchief, without even a pillow or a renders life much more irksome and less place whereon to lay our heads. We as- jolly than formerly. Notwithstanding the sumed a reclining attitude, and were close confinement during the sultry days amused by a brisk experience meeting and love feast that was being conducted by some women and men. Shortly after reaching our sleeping apartments we were attacked by fleas that were intent on being felt if not heard. The love feast seemed to increase in animation until about I o'clock Sab bath morning, at which time it became intolerable, and we withdrew, taking with us our portion of fleas, but leaving behind the noise, and went in search of more comfortable quarters. We soon reached another boarding tent that was at least more orderly, where we succeeded in appropriating to ourselves the width of our backs under the canvass, where sleep at last came to our relief, and when Sabbath's sun dawned upon us we discovered perplexed by a multiplicity of enterprises, or in that our neighbors during the night included several nationalities, at least two colors and two sexes. The Sabbath morning service at 8 o'clock was well attended and listened to with marked attention; the congregation were all comfortably seated and the encampment at that hour was delightful; later in the day the encampment was crowded with people and the forest and neighborhood with vehicles and horses. My friend and I are now about to turn our backs on the encampment in search of more quiet and comfortable quarters, concluding that camp meeting may be a good place for some, but that it is not adapted to the worshipping of God for two unsophisticated youths of pious turn of mind. We notice some Beaver Folks here, but they are not participating in religious service to any considerable extent. Washington County Items.-

The church authorities at Independence have leased for five years a delightful camp ground on the farm of Mr. Thomas Buchanan at the lower end of the village. They are preparing the ground and fitting up tents for a camp meeting to commence on Wednesday, the 3d of September. They are now sinking wells in order to have a full supply of water. A number of tents have already been erected, some of them two-stories high, and we understand that thirty-two have al' ready been engaged. No camp will be held at Castleman's Run this year.

-Jesse Huff, of West Alexander, acci mate a few days since, from the effects of which he died.

-The valuable real estate-dwelling and stores-of Wm. Howe, on Main street, this borough, was offered at public sale on Thursday last, and bid up to \$7,-300, but was not sold.

-The public schools of Washington will open on Monday, the 1st of September. The proper authorities have adopted "Osgood's new series of Readers," to be used in the schools.

-The Le Moyne Professorship of Ag: riculture in the College has been tendered to Col. W. H. G. Adny of the Ohio University, and he has decided to accept and will be here about the middle of Sep-

-Court commenced in this borough on Monday last. In the absence of Judge Acheson, Associate Judge Scott instructed the grand Jury, and the Court proceeded with the usual business. Yesterday several cases were tried.

The Wear and Tear of Life. The cares, anxieties and misfortunes of life have s much to do with shortening it as disease. They are in fact the source of many ailments and physical disabilities. Nervous weakness, dyspepsia, affections of the liver, disturbances of the bowels, headache, hypochondria and monominia are among these distressing fruits. It is, therefore of great importance that persons whose minds are oppressed with heavy responsibilities or harrassed by family troubles, or excited by speculation, or their stamina by the daily use of a wholesome tonic. Thousands of persons thus circumstanced are enabled to bear up against the difficulties in which they are involved, and to retain their strength, health and mental clearness by the regular use of Hostetter's Stomach Bitters. Diseases which are prone to attack the body when debilitated and broken down by over-much brain work, or exhausting physical labor, are kept at bay by the resistant power with which this incomparable tonic endows the nervous system and the vital forgans. At this season, when the heat is evaporating the elements of strength from every pore, en invigor ant is absolutely essential to the safety and comfort of the public, and is required even by the more robust if they desire to keep their athletic capabilities in status quo. Hence a course of Hostetter's Bifters is particularly useful at this period of the year as a defence against the invisible disease affoat in a sultry atmosphere. It is the most potent of ail preventive medicines, and for all complaints which affect the stomach, the liver and the bowels, and interfere with the perfect digestion and assimilation of food, it is the standard
